BLM MURAL PROJECT TACOMA

Letter from the Future (Catch the Fire, Peggy Taylor and Charlie Murphy, pg. 146)

This writing activity engages the unconscious to imagine a possible future.

Imagine a time 10 or more years in the future.

Your hopes for the future relevant to Black life and culture in Tacoma or Washington state have unfolded perfectly - in fact things have gone even better than you expected.

Consider these questions and write a letter to yourself or a trusted friend or relative from the future.

- 1. Describe what this future success feels like?
- 2. Describe what you are doing?
- 3. Describe the people that are with you and the environment? 4. Describe what the relationships are like in your community?
