working together for the social and economic good of our Key Peninsula

Box Holder

RFK park scheduled to re-open in June

KP News photo by Hugh McMillan

Work progresses on renovation of Robert F. Kennedy recreational park on the Key Peninsula. According to Mitchell Brones of Ohno Construction Company which is handling much of the work, the project will probably open on or near its June 30 scheduled date despite delays caused by the unusually high rainfall earlier this year. Work which began in January now includes a completed new 300 foot dock, pictured above. Under construction is a covered cook shed fabricated of steel, picnic areas, large parking areas soon to be hardtopped, a road network throughout the recreation area, and floating piling bouys for boat tie-up.

Theater Group formed

by Megan Aprile

More than twenty people appeared at the theater group meeting held last month; many with previous experience in some aspect of theater production.

It was decided to form a theater group. The next meeting has been set for April 18, 7:30 pm at the Civic Center. Everyone present agreed to do their best to bring two more people to the next meeting.

Some fun and interesting decisions will be made at the next meeting; the official name of the group, the organizational structure, and the type of project the group will tackle as a first production. Popular feeling at the initial meeting was towards a talent show open to all ages, but the subject will be more fully discussed at the April 18 meeting. Don't miss it!

All those of you who thought about the last meeting, or perhaps intended to come, are certainly welcome to attend. College and high school students with an interest in drama are particularly invited. People with any experience in theater would also be very welcome.

Growth means changes in local schools

by Keith Stiles

The steady pressure of growth in enrollment, the retirement of veteran teachers and administrators, and the shifts in the needs of modern education all point to a number of changes likely to occur in our Peninsula School District over at least the next few years.

One of the major immediate decisions facing the District and the community is how Vaughn Elementary can best be either modernized or completely re-built.

And, if Vaughn is to be completely re-built (or replaced), should it be constructed on the current site west of Vaughn Post Office, or should it be located elsewhere?

That question will be the subject of a series of meetings held with parents, school district officials and members of the public. The first meeting will be held on April 18, from 3:30 to 5:30 pm and is one of a series planned; all will be open to

the public. More information may be obtained by calling Steve Aspden, principal at Vaughn Elementary, at 884-9233.

The complete modernization of Vaughn, which was built in the mid-50's, will be paid for from state school modernization funds and from other money authorized by the voters in two recent school bond elections.

Engineers and architects who have been studying the various needs of the Vaughn facility will present the "Vaughn Facility Committee" with a number of alternatives. Proposals will also be presented on alternate sites for a "new" Vaughn school. These proposals for possible new locations will probably include the Elgin-Clifton Road area, and also property that the District already owns near the Key Peninsula Middle School. Consideration will also be given to suggestions for the best use of the

current school site and facility if Vaughn elementary is moved to another location.

More new construction coming

New construction is not limited to the Vaughn Elementary school, as work is already underway to create additional classroom space at Key Peninsula Middle School. Some preparatory site work on that project was completed over the recent spring recess, and the balance of the construction will be done over the summer. All of that work is expected to be completed by the opening of school in September.

Evergreen Elementary was recently completely remodeled, but the pressures of increased enrollment continue to be felt, and additional classrooms will be needed in the next few years to keep up with families coming to the area.

Retirements, transfers, changes

The growth of the Peninsula school district and the retirement or impending retirement of several principals, administrators and teachers will undoubtedly mean that transfers will occur throughout the system in each new school year.

While some transfers will result from retirements, others may come about when other Districts around the state recruit our teachers and administrators. Still other changes may occur as teachers and principals move to different schools to add to their background experience or to fill either special or new educational school programs.

Movement of this type is entirely normal for a rapidly expanding school district and should be expected as our schools change to meet the challenges of the 1990's and beyond.

KPPCA meeting report:

a change for the better

by Stephanie Zampini, KPCCA president

The Civic Center Association and the Park District have successfully completed contract negotiations. Under the new contract the Association will change its status to "user group," which will allow members to concentrate on programs presently existing and on the task of bringing in new ones. No changes will be noticeable on a day-to-day basis because of this new agreement.

Attendance at Bingo is so low that breaking even has become a problem. The program is presently being analyzed and input by you, the players, is asked for and will be welcomed. Volunteer workers are also needed. If enough helpers come forward, then one person need only work once a month. Bingo is run more as a social function than as a money-maker, but we need to at least break even... and that takes a large attendance on Wednesday evenings.

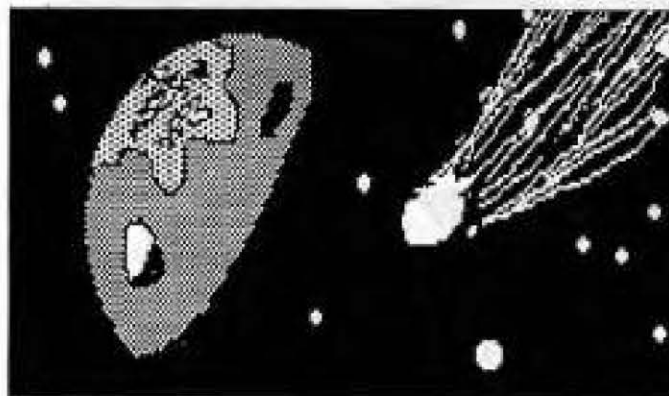

The Association is also in need of new members who would like to help bring other fresh, new programs to the community.

The Easter Egg Hunt was a great success and all of the credit goes to Cindy Marshall and her crew for setting it all up.

Roller skating is doing well, and will continue during the summer provided attendance remains high enough. Remember that you can have skate parties by reserving a date.

Key Peninsula's Pioneer Days celebration is coming up on Saturday, August 8, and the committee is in need of help. If you have an hour or two to spare that day, or anytime before, we would like to hear from you. The kind of time we are talking about is 1 - 2 hours helping in the Pioneer Farms display, selling raffle tickets, or maybe becoming booth chairman.

As with any small community, it takes help from all of the residents to make this the best place to live in.

Earth Day
1990

our beautiful planet suspended in the heavens.

Nutrition presentation has some interesting facts

by Megan Aprile

At a recent presentation at the Key Peninsula Health Center, Verna Bergmann, a nutritionist practicing in Gig Harbor shared some interesting facts with her audience.

The health risks of high cholesterol have been much discussed, but Bergmann added the fact that women aged 40 to 60 will experience a two milligram per year rise in cholesterol levels, which means that a forty year old woman could move from a "risk" (200 mg. per decaliter* of blood serum) category to a "high risk" (240 mg. per dl. of blood serum) category, even though she was not eating any more cholesterol than she ever had.

More and more emphasis is now being placed on a gradual change of eating habits and lifestyle as a way of controlling personal risk factors. Bergmann teaches classes called "food habit management" in which students are taught how to eat well and how to integrate new eating and

exercise habits into their lives.

During the presentation, Bergmann discussed some of the ways to structure eating to maintain optimum health. Here, condensed from her talk, is a crash course on fats and cholesterol.

We Americans are already doing better; we used to get 43% of our total calories from fat. As a nation, we are now down to 37% of our total calories from fat, but it is recommended by the American Heart Association that we get no more than 30% of our calories from fat. Animal products and meat are the main sources of high cholesterol fat, with egg yolks taking the cholesterol prize at 213 milligrams of cholesterol per yolk.

The fat and cholesterol content of other foods is not so obvious. Those packages of ground beef, for example, that say the meat is extra lean, or no more than 16% fat, are labelled with the fat by weight. The only meaningful way to

To The Editor

To the editor:

Curbside recycling collections will soon be offered in most parts of Pierce County. These systems are designed so that you can continue to recycle with your local recycler without being penalized.

If you live in unincorporated parts of Pierce County, send in the recycling sign-up card. You must do this in order to receive the lower "recycling rate" no matter where or how you choose to recycle. Your refuse company will deliver recycling bins for your use.

They do not care if you use the bins to recycle with a recycling center or with them. After May 1, we will give you a recycling sticker each time that you recycle with us. The sticker will go on your next refuse bill so that your hauler will know that you are a recycler.

John Wetzel, owner,
Wetzel's Recycling

Burley News

The Burley Library Association is having its first potluck of 1990 on April 18 at Burley Community Hall; everyone interested in Burley community is invited to attend. Bring a hot dish, a salad or a dessert; coffee will be provided and there is a pop machine at the Hall. The potluck will be from 6:30 to 8 pm.

Many exciting issues concerning Burley will be discussed. Don't miss this chance to be involved; come and bring your neighbor. For more information, contact BLA president Ron Roper at 857-6372.

understand the real fat content is to know the grams of fat in one ounce of the meat, which tells you what percent of the calories come from fat. Extra lean ground beef is about 40% fat. Some "low fat" cheese is about 5% fat by weight, 30% fat by calories. Chicken and turkey are low in fat, but chicken and turkey franks are about 70% fat.

With a little arithmetic, you can calculate the actual fat content of prepared foods as well.

There are 9 calories in a gram of fat, so if you multiply the number of grams in a serving or can or whatever, by 9, you can figure out the calories which come from fat. You can then apply the 30% ratio to that number. Ms. Bergman pointed out that some days are low-cholesterol days and some may not be so low. But awareness, combined with education and discipline can mean a longer healthier life.

*a decaliter is a tenth of a liter or 100 mills

next issue of the KP NEWS: May 7 - deadline April 30

Key Peninsula Community Services has board member opening

The Key Peninsula Community Services (Food Bank) is soliciting applications from those interested in filling the approximately eight months remaining of the term of office for a recently vacated position on its Board of Directors. Applications may be obtained Tuesday through Friday from 9 am to 4 pm, at Community House, Key Peninsula Highway and Huff Road in Home.

Applications must be received at Community House not later than 4 pm, Tuesday, May 8.

Fishermen's breakfast

The Key Peninsula Sportsmen's Club is once again inviting everyone to their annual breakfast on April 22. It will be served from 7 am to 1 pm at the Key Peninsula Sportsmen's Club building at 15013 Jackson Lake Road, KPN, Lakeway.

Ham, sausage, eggs, pancakes, breads, fruit, juices, coffee, and milk will all be served with a special smile. A Grandma's Attic Rummage Sale will be included as a special bonus for everyone.

Tickets are \$4 for adults and \$3 for children 10 and under. Chairman for this event is Bea Emil. For more information or tickets contact Irene Erickson, 884-3542 or Lovetta Jewett, 884-4811.

CAC Awards Banquet

Citizens Against Crime (CAC) invite the public to share in their Second Annual Awards' Banquet at the Key Peninsula Civic Center at 6:00 pm, Saturday, May 5. Keynote speaker will be State Senator Bill Smitherman.

"CAC volunteers have saved the taxpayers of Pierce County tens of thousands of dollars since they began their valuable work on April 25, 1988," said Pierce County Sheriff's deputy, John Hendrickson.

CAC is credited with substantially assisting the Purdy Detachment of the Sheriff's Department.

Join these fine volunteers in enjoying an excellent meal of beef dinner prepared by chef Marty Pedersen. Cost is \$6.00 per person. Ice and mixers will be available. Proceeds go toward purchase of a computer to further enhance the effectiveness of CAC operations in support of the Sheriff's Department.

respite care

Respite care for adults is available to all residents of the Key Peninsula and surrounding areas of Belfair, Allyn and parts of Port Orchard and Gig Harbor.

Respite care is open every Wednesday from 9 am to 3 pm at the Key Center Library. Care is provided by trained volunteer workers who supervise adults who need full time care with a variety of activities. Some financial help may be available. For more information, contact the Key Peninsula Health Center at 884-9221.

Pioneer Day meeting

The next Pioneer Day meeting will be April 19 at 7 am at the Huckleberry Inn. Please join the group if you can help, have input or would like to be involved in some way in this community event, which will be held this year on August 3.

Bingo or bust?

The Wednesday night Bingo games are an important event for those people who regularly attend. Unfortunately, it is very difficult to find people who are willing to run the event. It does pay a small wage and training is provided. If someone cannot be found, bingo will have to be cancelled. If you can help, please call Stephanie Zampini at 884-9821.

TeenDaze 1990

TeenDaze 1990 is an all-day event for teens, conceived and developed by teenagers after months of research and focus groups.

TeenDaze will be held at the Seaside Kinokane on April 21 and 22. Saturday will feature the popular local rock groups Young Fresh Fellows and Crazy Eights, and a major all-region dance that night with KUBE disc jockey Jerry Hart. On Sunday, Jude Cole and Kid Sensation will perform. Both days will feature a "Battle of the Bands", pro skateboarders, BMX performances, a fashion show staged by the Brass Plum from Nordstroms, carnival rides and games, a video arcade, make-up demonstrations by Revlon and hair "adjustments" by Hairmasters.

An all-day pass is \$10 and may be purchased at The Brass Plum and the Brass Rail at Nordstrom and all Hairmasters Salons. For more information call (206) 874-7109.

This item was sent in by TeenDaze producer Claudia Bass who lives near Lakeway and says she "regularly reads the NEWS." Thank you Claudia, for sharing this exciting event with us.

Allyn Waterside Park fund raiser

About four years ago, property adjacent to the Allyn dock which was owned by the Port of Allyn was designated as the Allyn Waterside Park, and at the same time a group known as the Friends of the Park was formed. Ruth Nelson, an Allyn resident and member of the group, started the rose garden, in her words, "It just kinda grew." She and her friend Jean Slaper designed the gardens and did most of the original planting.

Money to maintain and expand the garden has been raised each year at Allyn Day, a community salmon barbeque held during the third week of July.

In addition, shrub and tree sales are held as a fundraiser. For more information on how you can purchase quality roses and support the community at the same time, please call Ruth Nelson, 275 2447. She would also like to hear from anyone interested in working as a volunteer at the park. Friends of the Park also can accept donations of plants, particularly old fashioned roses, or money donations designated for plantings of roses or rhododendrons.

**Dart League offers
new challenges**

The Key Peninsula now has a division of the ADOI Dart League. This new league division offers players a chance to have fun and meet new people and a chance to win money, yes, money!! The division will play only in the Peninsula area and the only time players will have to travel over the bridge will be for either state or regional play offs.

The winter/spring league has just finished, with the following results: first place, Key Center Tavern's Animal House; second place, Gig Harbor Eagles; third place, Floatation Device; fourth place, Key Center Tavern's Animal Crackers; fifth place, Home Port. Congratulations to all teams. The first place team will go to the state play-offs, where they will have a chance to win up to \$1,000.

Each season, "state" will be held in a different location. This year it will be held at the Bayview Inn in Bremerton. Second and third-place teams will advance directly to regional play-offs, which will be held at the Huntsman in Tacoma. Four teams from the play-offs will go to state. Fourth and fifth-place teams will have a play-off, with the winner going to regionals.

State will be held April 21 at 9:45 am. Everyone is invited to come and support your favorite team.

Outdoor sports news

Halibut, Lingcod Season

April 16 is an important day for Puget Sound saltwater bottom fish anglers. The 1990 halibut and lingcod seasons open, creating good trophy bottom fishing opportunity, both in Puget Sound and the Strait of Juan de Fuca. This year, for the first time, anglers are required to carry a halibut catch card.

Lingcod season also opens in all marine waters east of Tatoosh Island, Neah Bay on April 16. The season remains open in the Strait of Juan de Fuca and the San Juan Islands through November 30 with a two fish limit, while the marine waters south of the Point Wilson-Admiralty Head line close May 31, with a one-fish limit. The minimum size of 22 inches remains in effect. Spearfishing divers are allowed one lingcod with no size limit in Puget Sound.

Hood Canal shrimp meetings

In mid-April the Washington Department of Fisheries will host two public meetings to discuss 1990 Hood Canal shrimp season options. Agency biologists will provide a brief presentation of the status of Hood Canal shrimp stocks followed by a discussion of possible season alternatives. Sport and commercial shrimpers are encouraged to attend and participate in one of these meetings.

The first meeting will be held in the Sheridan Park Recreation Center, 680 Lebo Boulevard, Bremerton, beginning at 7 pm on April 17. The Hoodport Community Center (Fire Hall), off Lake Cushman Road, is the site of the April 18 meeting, also scheduled to begin at 7 pm.

The Hood Canal recreational shrimp season traditionally opens at 9 am on the third Saturday of May. The full season package will be announced by Fisheries director Joe Blum after considering input from the public along with the resource status.

KP NEWS photo by Hugh McMillan

by Megan Aprile

Shown above is the aftermath of a five car pile-up on the Home Bridge. Accidents are a hazard of driving, and driving is a way of life on the Peninsula. The main cause of accidents is speeding, which is particularly a factor on our narrow shoulderless roads, where paving may not be in optimum condition and where there are many hills and curves.

Because accidents can also occur more often in some locations than others, the NEWS is presenting this information as a service to its readers. Accident reports will appear every three months or

so.

The greatest number of accidents so far this year have occurred on the fourteen mile stretch of the Key Peninsula Highway, followed closely by highway 302 and Elgin-Clifton road.

Elgin-Clifton: Since January 1, nine accidents have occurred on or around Elgin-Clifton road, which runs from an intersection at highway 302 to the Wright-Bliss intersection; three at Elgin-Clifton and 302, four in the stretch between the 13400 and 15100 blocks where the turn-offs for Lake of the Woods and Lake Holiday are, and two at the intersection of 134th and Elgin-Clifton road.

Highway 302: Since January 1, fourteen accidents have occurred on highway 302, which runs from the Purdy spit to Key Center; two at the Wauna curve, one at Goldman Drive, two at 144th NW, one at Creviston Drive, one at the 12400 block, one each at the 10100 block KPN and 11500 block NW, three at the 11000 block and two at the 9600 block, just outside Key Center.

Key Peninsula Highway: Highway 302 becomes the Key Peninsula Highway at Key Center as it continues out to Longbranch. Since January 1, eighteen accidents have occurred on the Key Peninsula Highway; one each at the 9100, 8700 and 8600 blocks, three at the 8300 block, one each at the 8100 and 8200 block, (all at or near downtown Key Center), one each at the 5600 and 5800 blocks (near the entrance of Volunteer Park), one at Lackey road, two at the 3900 block, two at the 3300 block (Whitman road), one at the 2400 block and one at the 2000 block. A five car pile-up occurred at the Home bridge.

Accidents have also occurred at 92nd and Olson drive near downtown Key Center, on Wright-Bliss road, Rocky Bay Point Road, 94th Ave NW, on North Heron Road and Rouse Road KPS for a grand total of 47 accidents so far this year.

Hydroplane Museum

The Tacoma Municipal Dock Building will be restored and modernized into a permanent home for the Unlimited Hydroplane Museum; it will also house local Sea Scouts and be a possible future terminal for passenger-only ferry service. The museum expects to be open to the public in late 1991 or early 1992.

"Honorary" parchment leases (suitable for framing) will be selling for \$25 per square foot, and there are 45,000 square feet available. Charter memberships are available for \$75 and include an exclusive lapel pin, gold membership card and free admission for the first year the museum is open. Contributors' names will be listed in the Museum's newsletters and displayed in the facility.

The Unlimited Hydroplane Hall of Fame and Museum is a legal IRS non-profit organization and contributions are tax deductible.

Business briefs

Red Dogs, the downtown Key Center convenience store, has re-opened under the ownership of Dan Zelinsky and Jerry Madison. While still carrying some grocery products, the store has given over much more space to videos, with over a thousand available to choose from, and titles changed weekly.

1990 marks Tacoma Telco Credit Union's fiftieth anniversary. Tacoma Telco serves a broad field of membership in Pierce County, and has a branch in downtown Key Center.

Credit Unions are owned by members, who elect a volunteer board of directors. Profits are returned to the membership. Tacoma Telco holds the highest ratings possible in all areas of operations as determined by outside regulators.

Over at Minter Village, John Pe-nocchio, a veteran of forty years in the restaurant business, will soon be opening his new take-out only restaurant, Alaskan Fish and Chips.

He will offer seafood plus hot dogs and hamburgers. Everything will be home-made, down to the tartar sauce. His business philosophy is "quality, service, personality."

Home give-away sponsored by local realty

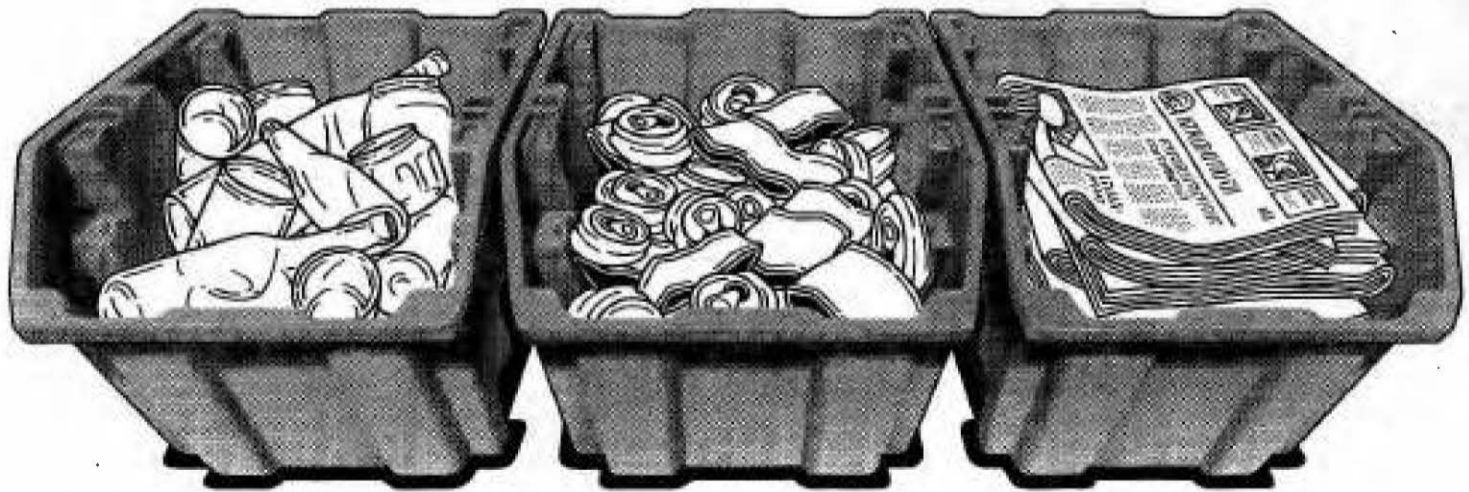

Jean Gazabat, broker for ERA-Shorewood Real Estate, Inc., in Gig harbor, has announced that Electronic Realty Associates, Inc., will sponsor the ERA Dream Home Giveaway this spring. The promotion, which runs during April and May, is sponsored in conjunction with USA Network, a national cable television network.

While overall housing affordability improved during the second year of 1989, first-time buyers continue to be plagued by affordability problems. Recent statis-

tics from the National Association of Realtors show that on a national basis first-time buyers have only 71 percent of the income needed to buy a typical starter home.

To enter, consumers may simply fill out and deposit a registration form available at participating ERA Real Estate member broker offices. They may also enter by mailing an entry to USA Network or by calling a special promotion number. The winning entry will be drawn on or about June 30.

LOSE 2 POUNDS A DAY.

THERE'S NO TIME TO WASTE.

You produce about 4 1/2 pounds of garbage every day. But with Pierce County's new Curbside Recycling Program you can reduce that by as much as 50%. Plus you'll save money and the environment. Sign up today. And start watching your waste.

At this time Pierce County's Curbside Recycling Program is not available in the following areas: Bonney Lake, Buckley, DuPont, Eatonville, Fircrest, Fort Lewis, McChord Air Force Base, Milton, Orting, Puyallup, Ruston, Steilacoom, Sumner, Tacoma.
