Dear Fellow Employee:

The Summer edition of the ASARCO NEWS contains a lead article on the Tacoma Plant followed by an article on the Quiruvilca Mining operation in Northern Peru. This is one of the mines from which your plant receives its concentrates.

Of possible interest to members of your family and friends, is a picture of the inside of a reverberatory furnace at the Hayden Plant. This picture is representative of the inside of the Tacoma furnaces.

It is also noted in this issue that a two-year lead time is needed to compete for the ASARCO Merit Scholarship instead of one year.

I hope you enjoy this issue.

Sincerely,

ARMAND LABBE
