WHEREAS, this Council is in receipt of a communication from Geo. T. Reid, Division Counsel of the Northern Pacific Railway Company, as follows:

"Tacoma, Wash. Dec. 28, 1910.

To the Honorable Mayor and Council of the City of Tacoma, Tacoma, Washington. Gentlemen:-

Our Company has sold the City the 300 feet of property lying upon the west side of the city waterway and immediately north of the Eleventh Street bridge. We have arranged to lease the 315 feet immediately north of the property sold to the City to the Commercial Dock Company, and have inserted in the lease a provision that both the City and the Commercial Dock Company are permitted mutually to overlap vessels on the frontage of the other. The Commercial Dock Company furnishes dockage to boats of such length that it will be necessary at times to occupy the full space leased to the Commercial Dock Company, and it is also necessary that these boats be permitted to land without delay, as time is very important to them.

We wish to have it understood that in case a vessel arrives wishing to dock at the Commercial Dock Company's dock and the vessel berthed at the City dock is overlapping the Commercial Dock Company's property so as to prevent the landing of the boat at the Commercial Dock Company's property the City will promptly cause the overlapping boat to be so shifted as to permit the boat at the Commercial Dock Company's dock to fully occupy its berth. If the City for any reason does not cause the overlapping boat to be shifted then the Commercial Dock Company has the right to cause the boat to be shifted and to bill against the City for the actual expense and the City agrees to pay such bills. RESOLUTIONS.

By Weeks.

WHEREAS, pursuant to his contract with the City of Tacoma, for Sections I to VIII inclusive of the Nisqually Power Plant, of date March 24th, 1911, Hans Pederson has entered upon the work of said contract, and has also procured an agreement with Thomas J. Bolger Company, of Chicago, for the sale of the bonds which his contract provides he shall receive from the City of Tacoma for his construction of said Sections I to VIII; and

WHEREAS, said Pederson has requested the City of Tacoma to assent to the terms of his said agreement with said Thomas J. Bolger Company; and

WHEREAS, said agreement provides, among other things, that all of the bonds to be issued under the terms of said Pederson's contract with said City shall be forwarded to one of two certain banks therein named, in the City of Chicago, to be delivered by such bank to said Thomas J. Bolger Company as demanded, but that the said Thomas J. Bolger Company shall deliver to said bank other bonds of equal par and actual market value as a pledge to the City of Tacoma that the money to be paid for said bonds will be paid to said Pederson at the time and in the amounts requisite to perform his contract with said City; and

WHEREAS, it is desirable that the sale of said bonds to said Thomas J. Bolger Company be consummated; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That the City of Tacoma assents to the provisions of the said agreement between said Hans Pederson and Thomas J. Bolger Company and will in all reasonable ways facilitate the carrying out of the same, PROVIDED, that it shall be expressly understood and agreed to in writing by said Pederson and said Thomas J. Bolger Company in addition to the written agreement already existing between said parties, as follows:

First: That the bank selected shall be the First National Bank of Chicago.

Second: That said bank shall in all matters connected with the sale of said bonds be the agent of the City of Tacoma, and in no case or sense the agent of either of said parties.

Third: That the bonds of "equal par and actual market value" to be deposited by said Thomas J. Bolger Company with said bank as a pledge to the City of Tacoma, shall in every case be municipal corporation bonds of cities within the United States which are not in default upon any of their indebtedness, either principal or interest. The bank shall in the first instance be the agent of the City to determine the sufficiency of such bonds, and its decision as against said Thomas J. Bolger Company shall be final. Upon receipt of any such bonds the bank shall immediately furnish the City Controller a list of the same. The Sinking Fund Board of the City of Tacoma upon receipt of such list, or at any time thereafter, may reject any series of bonds thus deposited, and notify said bank and said Thomas J. Bolger Company thereof; and thereupon said Thomas J. Bolger Company shall, within one week after receipt of such notice, substitute other bonds for those rejected.

Fourth: The City of Tacoma may by resolution of its Council terminate this assent and agreement upon its part upon any failure of the bank to pay, on presentation, any draft said City may deliver to said Pederson, or his assigns, against the proceeds of said bonds; and upon such termination all bonds unsold in the possession of said bank shall be at the disposal of the City of Tacoma by its proper officers.

Fifth: The bank shall pay drafts or orders upon it drawn by the City Controller and the Mayor of the City of Tacoma, and attested by the City Clerk and the Corporate Seal. Each order to be accompanied by a duplicate monthly estimate of said money earned by said Pederson in the construction of said Hydro-Electric Power Plant, signed by the Commissioner of Light and Water of said City.

Sixth: Said bank shall account to the Treasurer of the City of Tacoma, monthly, for all moneys received by it from the sale of said bonds, in the manner of banks accounting to their depositors.

Seventh: Should said Pederson fail in the prosecution of his construction contract, of which the Council of the City of Tacoma shall be the sole Judge, said Council may by resolution withdraw this assent and take possession of all unsold bonds and withdraw all proceeds of sales of said bonds from said bank by ordinary draft without the duplicate statement above mentioned.

Eighth: In case said Pederson shall fail to pay his laborers or material men, the City of Tacoma shall have the right to avail itself of the paragraph in his construction contract entitled "Failure to Pay for Labor and Material" by drawing on the fund in the possession of said bank to its own order to the extent necessary to pay the sums due for such labor and material.

Ninth: The proceeds of sales of said bonds shall be treated by said bank as a deposit to the credit of the City of Tacoma.

Tenth: Said bank shall assent to all the conditions of these resolutions in writing signed by its proper officers, and shall have no claim whatever against the City of Tacoma for any expense or outlay in connection with this transaction.

ELEVENTH: Neither the said Pederson nor the said Thomas J. Bolger Company shall have any right to or claim against the City of Tacoma for any act or default of said bank or said City or its officers in connection with this transaction; it being expressly understood that this assent

on the part of said City is purely voluntary and without the payment of any consideration whatever to it by any person or party.

Adopted on roll call. Yeas 5. Nays 0. Absent 0.

On motion the Council then adjourned.

Bolger Company in addition to the written agreement already existing between said parties, as follows:

First: That the bank selected shall be the Continental and Commercial Bank of Chicago.

Second: That said bank shall in all matters connected with the sale of said bonds be the agent of the City of Tacoma, and in no case or sense the agent of either of said parties.

Third: That the bonds of "equal par and actual market value" to be deposited by said Thomas J. Bolger Company with said bank as a pledge to the City of Tacoma, shall in every case be the bonds of states, counties, cities or school districts, including cities within the United States which are not in default upon any of their indebtedness, either principal or interest. The bank shall in the first instance be the agent of the City to determine the sufficiency of such bonds, and its decision as against said Thomas J. Bolger Company shall be final. Upon receipt of

any such bonds the bank shall immediately furnish the City Controller a list of the same. The Sinking Fund Board of the City of Tacoma upon receipt of such list, or at any time thereafter, may reject any series of bonds thus deposited, and notify said bank and said Thomas J. Fourth: The City of Tacoma may by resolution of its Council terminate this assent and agreement on its part upon any failure of the bank to pay, on presentation, any draft said City may deliver to said Pederson, or his assigns, against the proceeds of said bonds; and upon such termination all bonds unsold in the possession of said bank shall be at the disposal of the City of Tacoma by its proper officers.

Fifth: The bank shall pay drafts or orders upon it drawn by the City Controller and the Mayor of the City of Tacoma, and attested by the City Clerk and the Corporate Seal. Each order to be accompanied by a duplicate monthly estimate of money earned by said Pederson in the construction of said Hydro-Electric Power Plant, signed by the Commissioner of Light and Water of said City.

Sixth: Said bank shall account to the Treasurer of the City of Tacoma, monthly for all moneys received by it from the sale of said bonds, in the manner of banks accounting to their depositors.

Seventh: Should said Pederson fail in the prosecution of his construction contract, of which the Council of the City of Tacoma shall be the sole judge, said Council may by resolution withdraw this assent and take possession of all unsold bonds and withdraw all proceeds of sale of said bonds from said bank by ordinary draft without the duplicate statement above mentioned.

Eighth: In case said Pederson shall fail to pay his laborers or material men, the City of Tacoma shall have the right to avail itself of this paragraph in his construction contract entitled: "Failure to Pay for Labor and Material" by drawing on the fund in the possession of said bank to its own order to the extent necessary to pay the sums due for such labor and material.

Ninth: The proceeds of sales of said bonds shall be treated by said bank as a deposit to the credit of the City of Tacoma.

Tenth: Said bank shall assent to all the conditions of these resolutions in writing signed by its proper officers, and shall have no claim whatever against the City of Tacoma for any expense or outlay in connection with this transaction.

Eleventh: Neither the said Pederson nor the said Thomas J. Bolger Company shall have any right to or claim against the City of Tacoma for any act or default of said bank or said City or its officers in connection with this transaction; it being expressly understood that this assent on the part of said City is purely voluntary and without the payment of any consideration whatever to it by any person or party. WHEREAS, said agreement provides, among other things, that all of the bonds to be issued under the terms of said Pederson's contract with said city shall be forwarded to the Continental and Commercial Trust & Savings Bank, in the City of Chicago, to be delivered by such Trust Company to said Thomas J. Bolger Company as demanded; but that the said Thomas J. Bolger Company shall deliver to said Trust Company other bonds of equal par and actual market value as a pledge to the City of Tacoma that the money to be paid for said bonds will be paid to said Pederson at the time and in the amounts requisite to perform his contract with said city; and

WHEREAS, it is desirable that the sale of said bonds to said Thomas J. Bolger Company be consummated; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That the City of Tacoma assents to the provisions of the said agreement between said Hans Pederson and Thomas J. Bolger Company, and will in all reasonable ways facilitate the carrying out of the same; PROVIDED, that it shall be expressly understood and agreed to in writing by said Pederson and said Thomas J. Bolger Company, in addition to the written agreement already existing between said parties, as follows:

First: That the Trust Company selected shall be the Continental and Commercial Trust & Savings Bank, of Chicago.

Second: That said Trust Company shall in all matters connected with the sale of said bonds, be the agent of the City of Tacoma, and in no case or sense the agent of either of said parties.

Third: That the bonds of "equal par and actual market value" to be deposited by said Thomas J. Bolger Company with said Trust Company as a pledge to the City of Tacoma, shall in every case be the bonds of states, counties, cities, or school districts including cities within the United States which are not in default upon any of their indebtedness either principal or interest. The Trust Company shall in the first instance be the agent of the City to determine the sufficiency of such bonds, and its decision as against said Thomas J. Bolger Company shall be final. Upon receipt of any such bonds the Trust Company shall immediately furnish the City Controller a list of the same. The Sinking Fund Board of the City of Tacoma upon receipt of such list, or at any time thereafter, may reject any series of bonds thus deposited and notify said Trust Company, and said Thomas J. Bolger Company thereof; and thereupon said Thomas J. Bolger Company shall, within one week after the receipt of such notice, substitute other bonds for those rejected.

Fourth: The City of Tacoma may by resolution of its Council terminate this assent and agreement on its part upon any failure of the Trust Company to pay on presentation any draft said City may deliver to said Pederson or his assigns against the proceeds of said bonds; and upon

AUG 1 1911

such termination all bonds unsold in the possession of said Trust Company shall be at the disposal of the City of Tacoma by its proper officers.

Fifth: The Trust Company shall pay drafts or orders upon it drawn by the City Controller and the Mayor of the City of Tacoma and attested by the City Clerk and a corporate seal; each order to be accompanied by a duplicate monthly estimate of money earned by said Pederson in the construction of said Hydro-Electric Power Plant, signed by the Commissioner of Light and Water of said city.

Sixth: Said Trust Company shall account to the Treasurer of the City of Tacoma, monthly, for all moneys received by it from the sale of said bonds, in the manner of banks accounting to their depositors.

Seventh: Should said Pederson fail in the prosecution of his construction contract, of which the Council of the City of Tacoma shall be the sole judge, said Council may by resolution withdraw this assent and take possession of all unsold bonds and withdraw all proceeds of sales of said bonds from said Trust Company by ordinary draft without the duplicate statement above mentioned.

Eighth: In case said Pederson shall fail to pay his laborers or material men the City of Tacoma shall have the right to avail itself of the paragraph in his construction contract entitled "Failure to pay for Labor and Material," by drawing on the fund in the possession of said bank to its own order, to the extent necessary to pay the sum due for such labor and material.

Ninth: The proceeds of sales of said bonds shall be treated by said Trust Company as a deposit to the credit of the City of Tacoma.

Tenth: Said Trust Company shall assent to all of the conditions of these resolutions in writing signed by its proper officers, and shall have no claim whatever against the City of Tacoma for any expense or outlay in connection with this transaction.

Eleventh: Neither the said Pederson nor the said Thomas J. Bolger Company shall have any right to or claim against the City of Tacoma for any act or default of said Trust Company or said city or its officers in connection with this transaction; it being expressly understood that this assent on the part of said city is purely voluntary and without the payment of any consideration whatever to it by any person or party.

Twelfth: It is understood that said Trust Company does not assume any liability or responsibility in connection with this matter other than the exercise of good faith and care, and it is also understood that any papers, writings or documents purporting to contain the signatures of the officers of the City of Tacoma and believed by the Trust Company to be genuine shall cease. And,

To identify the said changes and additions and to certify the same and provide for the expense thereof,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That the plans and specifications of the work of constructing said Green River Gravity System Pipe Line be and they are hereby changed, modified and added to in the following particulars, to-wit:

- (a) The general route of said pipe line and the lands through which it shall be laid are to be as described in Ordinance No. 4644, passed July 12th, 1911, with necessary crossings of the Northern Pacific Railway tracks as hereinafter set forth.
- (b) The following items of change in construction are allowed and approved, and are to be paid for to said Wright as "extra work" under the terms of said contract, viz:
 1. Two diagonal crossings of the Northern Pacific Railway Company's Buckley Branch.
 2. One crossing beneath the fill of the Chicago, Milwaukee & Puget Sound R.R. Co's White River Branch, with tunnel lined with timber and reinforced concrete.
 3. On concrete pipe culvert at Deep Creek crossing.
 4. Widening of trench so as to take in a 60-inch pipe instead of a 54-inch pipe between the Head-works and Station 151.
 5. Between Stations 125 and 147 pipe to be laid within 100 feet of the center line of the N.P. railroad track, instead of within 200 feet thereof; substitute a 45-inch wood pipe for a 48-inch wood pipe between said stations; change steel pipe from 36-inch to 45-inch size; manner of laying pipe under White River to be changed from the plan of one foot of concrete around 36-inch pipe, to a width of ten feet of concrete under the base of a 45-inch pipe, concrete being brought over said 45-inch pipe in oval form, according to direction of the Engineer; length of pipe so covered by concrete to be 325 feet instead of 300 feet; a concrete wall to be constructed six inches thick and to the surface of the river bank, instead of a plank box to reach the blow-off gate; the approach to the Stone & Webster Flume to be built upon a frame bent trestle, and the crossing to be upon concrete piers and steel I beams in lieu of underground crossing.
 - (c) Construct a culvert of corrugated galvanized iron approximately forty-two feet long, to be laid across the pipe line near Buckley to carry storm water drainage.
 - (d) Substitute for the underground crossing of Puyallup River near McMillan a steel truss bridge according to such plans as may be hereafter approved by this Council;

NOV 8 - 1911

(e) To overcome slides which occur between Stations 130 and 140 where said pipe is laid -- along the Green River and the railroad track, remove slides as they occur and pass extra bands around the pipe and insert in the ledge of rocks adjoining, and build a water flume to carry storm-water over the pipe.

(f) Crossing under Boise Creek between stations 60 and 120, and building of three small trestles at other crossings of said Creek.

(g) Deepen the trench and construct siphons where necessary and as directed by the Engineer where necessary to preserve existing drainage of lands and for carrying off storm water.

(h) Deepen the trench at road crossings in King County, to satisfy demands of Commissioners of that county.

AND BE IT FURTHER RESOLVED:

That where as the Northern Pacific Railway Company required that the cut at Bayne be widened to a width of 25 feet additional before it would allow the pipe to be laid there, the said Wright be allowed and paid for said additional widening at the rate of thirty cents (30 cts.) per cubic yard of earth removed.

AND BE IT FURTHER RESOLVED:

That for 60-inch pipe and 2-piece bands with two shoes for each band, substituted for 54-inch pipe from the Headworks to Station 90, revised line, said Wright be allowed and paid \$1.89 per lineal foot of pipe and 94 cts. for each band. Said 60-inch pipe and all other pipe under this contract to be of a finished thickness of 1 5/8 inches.

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That modifications in the construction of the McMillan Reservoir under the contract entered into with Messrs. Maxham & Berne April 27, 1911, be made as follows:

1. Instead of a concrete cross wall dividing the reservoir, an earth wall faced with concrete of the same class and thickness and with concrete coping the same as the rest of the embankment of the reservoir, shall be constructed. 3. For concrete surfacing of the slopes of said earth wall and the concrete coping thereof Maxham & Berne shall be paid Seven and twenty-five one hundredths (\$.725) Dollars per cubic yard instead of Six and twenty-five one hundredths (\$.625) Dollars per cubic yard as specified for concrete "A" in their original contract.
