Dear Nannie -

At hand yours of Feb. 18, to answer <sup>to have it</sup> framed and hung, will be an honor. Glad you like it that well.

During my moping around the past three weeks (ten days of it in the hospital with infection of the right kidney, three skin diseases and two other disorders - all souvenirs of my travels) the need of going to America next Winter has become more apparent and determination to act more crystalized, so lets not discuss heirlooms any more until then. except that in the meanwhile you are kindly sending me the two watercolours.

I wish that Stan would send me a statement of the clippings he has made (if he remembers) of coupons on my Australian Bonds. From my bank statement it is not quite clear, and as I am usually befuddled anyway about my accounts it would be a help if Stan would say first where he thinks I am at in this matter.

This being a blue Sunday I can't for the life of me write a letter tho I had good intentions when I started at the top of this sheet. Please excuse  
Yours  
Scho.
