#### RESOLUTIONS.

RESOLUTION  
By Read.

RESOLVED by the City Council of the City of Tacoma, that the City Clerk be and is hereby authorized and directed to deliver to each of the three daily newspapers of the City one copy found in paper of the Revised Charter and Ordinances of the City now being printed.

Adopted.

RESOLUTION  
By Hawley.

Be it resolved by the City Council of the City of Tacoma, that Jefferson Street from the West line of Pacific Avenue to the East line of South "E" Street, also South 17th Street from the present pavement on Pacific Avenue and the N.I. Ry. tracks to Jefferson Street, also Commerce Street from Jefferson Street to South 17th Street, be improved in the manner hereinafter described and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefitted thereby in accordance with the Laws of the State of Washington and Ordinance No. 1582 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in ten (10) equal annual installments, with interest at the rate of seven per cent. per annum on deferred payments.

Said improvement shall consist in grading said portion of said streets to the established grade, with roadways fifty-six (56) feet in width, and in laying down on said roadways, a pavement of asphalt with brick gutters, on a concrete base. The improvement shall also consist in constructing concrete and granite curbs and the necessary storm water drainage, together with wooden retaining walls, also in constructing sidewalks of plank on the easterly side of Jefferson Street from Pacific Avenue to a point six (6) feet southerly from the southerly line produced of Lot six (6) Block 1805, New Tacoma, W.T., and on the east side of Commerce Street, and on the north side of South 17th Street; also in constructing concrete retaining walls in Jefferson Street near the intersection of South 23d Street and South 25th Street.

Provided that on the easterly side of Jefferson Street, and at its intersection with South 21st, South 23d Street and South 25th Street, a sandstone pavement shall be laid instead of an asphalt pavement.

Provided further, that that part of the above mentioned streets to be paved by the Tacoma Railway & Power Company under its franchise, is not to be included in this improvement.

All of said work to be done, made and completed in accordance with the specifications to be prepared by the City Engineer, and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 251", against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

## NEW BUSINESS.

On motion of Conrad the action of the City Council on the 27th ultimo, adopting the report of the Police & License Committee recommending that the application of Smart & Marlok for a liquor license on Lot 12, Block 7423 be denied, was reconsidered; and on further motion by Conrad the application was granted.

The Commissioner of Public Works announced that the pipe in well No. 4, one of the wells at South Tacoma sunk by H. Forest McConihe, had been taken up and that there were no perforations in the pipe as required by his contract.

Hawley moved that the Council resolve itself into COMMITTEE OF THE WHOLE to consider the matter. Carried.

JAN 3 - 1906

At 9:45 o'clock p.m. the Committee rose and reported: recommending that the Commissioner of Public Works advertise for bids for resinking the pipe in well No. 4, the pipe to be perforated before being sunk, also for perforating the pipe in well No. 2; and that the casing in well No. 4 be made 7 inch instead of 4 inch. Also that the cost of doing said work be deducted from the price to be paid McConihe for drilling said wells.

On motion of Read the Commissioner of Public Works was instructed to advertise for bids for sinking 2 wells at South Tacoma for the purpose of attaining flowing water therefrom. Nothing to be paid for said wells unless flowing water is obtained. Said bids to be submitted to the City Council before any award being made.

On motion the Council then adjourned.

RESOLUTIONS.

RESOLUTION No. 3368 By Wright.

Be it resolved by the City Council of the City of Tacoma, that the Commissioner of Public Works be, and is hereby instructed to cause a survey, diagram and estimate made, for grading of South 25th Street, from Jefferson Avenue to Hosmer Street.

Adopted.

RESOLUTION No. 3369 By Hawley.

WHEREAS there is a controversy existing in the vicinity of the cemetery in South Tacoma with reference to whether a small tract of land is now a part of a public street or the property of one F.J. Colby, and

WHEREAS the said street is now being improved and Mr. Colby has agreed to dedicate the said tract of land hereinafter described for street purposes in the event no assessment be levied against his property for grading said street and constructing sidewalks on the East side of South Cedar Street; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That the Commissioner of Public Works be and he is hereby authorized and directed to procure from F.J. Colby a deed of conveyance and dedication, dedicating the following described tract of land to the use of the City of Tacoma for street purposes, to-wit:

Beginning at the north west corner of "Lookout Park", a part of the City of Tacoma, Washington, running thence north along the westerly line of Block 4, produced, 124.9 feet, thence west 41 feet, thence south 124.9 feet, thence east to place of beginning, and shall have as the consideration for such conveyance, that the said F.J. Colby shall not be charged with the grading of said street abutting his premises nor the cost of building sidewalks on the east side of South Cedar Street, it being the intention of the City of Tacoma to release the said Colby from the payment of any assessment by reason of the grading and sidewalking abutting his property now under contract, and not to release his property from liability for future improvement.

Adopted.

RESOLUTION No. 3370 By Hawley.

Be it resolved by the City Council of the City of Tacoma, that Jefferson Street from the West line of Pacific Avenue to the East line of South "E" Street, also South 17th Street from the present pavement on Pacific Avenue and the N.P.R.'s tracks to Jefferson Street; also Commerce Street from Jefferson Street to South 17th Street, be improved in the manner hereinafter described and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefitted thereby in accordance with the laws of the State of Washington and Ordinance No. 1382 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in ten (10) equal annual installments, with interest at the rate of seven per cent. per annum on deferred payments.

Said improvement shall consist in grading said portion of said streets to the established grade, with roadways fifty-six (56) feet in width, and in laying down on said roadways, a pavement of asphalt with brick gutters, on a concrete base. The improvement shall also consist in constructing concrete and granite curbs and the necessary storm water drainage, together with wooden retaining walls, also in constructing sidewalks of plank on the easterly side of Jefferson Street from Pacific Avenue to a point six (6) feet southerly from the westerly line producer of lot six (6) block 1806, New Tacoma W.T., and on the East side of Commerce Street, and on the North side of South 17th Street; also in constructing concrete retaining walls in Jefferson Street near the intersection of South 23d Street and South 25th Street.

Provided that on the easterly side of Jefferson Street, and at its intersection with South 23d, South 23d Street and South 25th Street, a sandstone pavement shall be laid instead of an asphalt pavement.

Provided further, that that part of the above mentioned streets to be paved by the Tacoma Railway & Power Company under its franchise, is not to be included in this improvement.

All of said work to be done, made and completed in accordance with the specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 251," against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

A communication was received from the City Engineer submitting the following report of estimate for proposed extension of water supply to Green Water River:

JAN 17 1906

January 17, 1906.

To the Honorable City Council,  
City of Tacoma.

Gentlemen:

In accordance with a resolution instructing me to make preliminary surveys and estimates for the extension of our City water supply to the Green Water River, and also to the Green River, I beg to report that the surveys and estimates have been finished to the Green Water. It will probably take ten days more to finish that of the Green River.

The surveys were commenced immediately when ordered in the latter part of September, just at the beginning of the rainy season, and have been pushed as rapidly as possible. The work was commenced just at the time several railroad companies began their survey, and it was impossible to secure men for the two parties desired. On this account the work has been delayed beyond what I hoped it would be.

The proposed extension consists of a concrete dam and intake on the Green Water near its mouth, from which a wooden pipe line varying from twenty-eight (28) inches to thirty-six (36) inches in diameter, according to the grade, with an undercrossing of the White River, leads along the left bank of the river to a point about three miles East of Buckley, tapping the Clear Water River on the way; thence westerly along the Section line of the South City limits of Buckley, thence westerly past Rhodes' Lake crossing the Puyallup River Valley at McMillan, thence westerly about two and one half (2 1/2) miles to the reservoir site. The pipe from near Buckley to the reservoir site varies in size from thirty-two (32) to forty (40) inches in diameter; thence from the reservoir by direct route to near the City limits at Asotin Street; thence along Asotin Street, and along the alley between Asotin Street and Chandler Street, and along "Y" Street to the Alaska Street reservoir, with one line extending to the present stand pipe, the pipe supplying the High service is to be thirty-four (34) inches in diameter, and for the Middle service, from thirty-four (34) to forty-two (42) inches in diameter. It is arranged to deliver 10,000,000 Gallons at the stand pipe and 20,000,000 gallons at the Alaska Street Reservoir. The overflow from the stand pipe to pass into the Alaska Street Reservoir, and the overflow from the Alaska Street Reservoir to pass into the reservoir for the low service, thence into the Bay. With this it is expected to hold the water in the stand pipe at an elevation of 485 feet above the City datum, or about 75 feet above the highest points to which water will be delivered. All pipes will be of wood except the crossing of the Puyallup River Valley, where a 34 inch steel pipe about 10,000 feet in length will be necessary, it being thought best to use steel where the head exceeds 200 feet.

The entire length of line projected is forty-eight and seven-tenths (48 7/10) miles. A final location will shorten this somewhat.

The Green Water River lies almost its entire length in the Government reserve. There are as yet no sources from which it can be contaminated. The Natches Pass at the head of it is very high, and it is not probable that any great railroad will build through it, except as a last resort, and if so, there can be no possibility of a considerable number of people ever living in the valley. The country can have no industries except logging, and as long as the land is held as a reserve, the water should remain as pure as now. Our measurements showed 51,000,000 Gallons of water last summer when the river was at its lowest. The Clear Water River that can be used along with the Green Water, empties into the White River about ten (10) miles below the Green Water. It has its source in the high mountain just north of Mount Tacoma, and flows through a steep and rough country that can never be inhabited. At its lowest stage it flows 20,000,000 Gallons per day. The chemical analysis of both these streams show them as nearly pure as water can be, and in every way desirable for a City supply.

Owing to the distance of the source of supply from the City, it will be necessary to construct a reservoir, and I have planned for one of 100,000,000 gallons capacity South-east of Midland.

It is off a direct line into the City, but the difference in cost on account of its being a natural basin, will more than make the difference in cost in pipe. The reservoir to be lined throughout with concrete.

On the line, soon after crossing the White River a settling basin is to be constructed, the basin to be covered and lined with concrete. This is for the purpose of intercepting any gravel, sand, or other material that may get past the racks and screen at the dam. The line follows the grade of the White River until the canon is reached, when it passes to the high land and follows not far from the hydraulic grade, into the City; so that a comparatively low pressure pipe can be used, the only exception being the crossing of the Puyallup River valley, where a high pressure pipe will be necessary.

The whole plant will be essentially a gravity system. No pumping will be required as the head is sufficient to reach any point in the City, with a pressure of over thirty (30) pounds per square inch.

The supply of 30,000,000 gallons planned, is sufficient for 250,000 people. I had not considered it best to plan for more. Any plant that cannot be readily enlarged or added to, should be built with a view of meeting the demands for water, for a period of from twenty to twenty-five years. If there were any means of forecasting exact populations at any period, there would be no difficulty in determining the exact capacity of the plant.

An additional 10,000,000 gallons, would add approximately \$100,000 to the cost. The 70,000,000 gallons of water furnished by the Green Water and Clear Water river is sufficient for at least one half million people.

The cost of the plant is figured on a conservative basis, and there is no doubt that the estimate will furnish a plant, constructed throughout in a thoroughly first class and workmanlike manner.

The Green River is the only other possible source of supply within reach of the City, and one of these streams must of necessity be used, before the City will have solved its present difficulties.

The following is an itemized estimate of the cost:-

RESOLUTION

Salmsen, chairman of Special Committee on Charter Revision submitted the following resolution:

WHEREAS the City Council of the City of Tacoma deems it necessary and expedient to amend Sections 7 and 8 of Article 2; Section 216 of Article 21; Paragraph 9 of Section 52 of Article 3; Section 95 of Article 9 as amended by Section 1, amendment 18; Section 135 of Article 12 as amended by Amendment 20; Section 136 of Article 12 as amended by Amendment 31; Section 138 of Article 12 of the City Charter of the City of Tacoma, and that portion of the City Charter known as Charter Amendment No. 13; and

WHEREAS the City Council of the City of Tacoma deems it necessary and expedient to amend the City Charter by adding thereto a certain amendment hereinafter set out; and WHEREAS it is the intention of said City Council to offer the aforesaid mentioned amendments to the qualified voters of the City of Tacoma, NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA: That said City Council deems it necessary and expedient to offer to the qualified voters of said City the aforesaid mentioned amendments, and hereby declares its intention to offer to said voters such amendments for their ratification or rejection at the next general municipal election, to be held in the City of Tacoma on the 3d day of April, 1906, which said amendments read as follows, to-wit:

SECTION 7, ARTICLE 2:  
The term of all elective officers shall be two years and until their successors are duly elected and qualified. All other officers shall hold office at the pleasure of the appointing power; provided, that the officials and employees, other than common laborers, in the Fire Department, Water and Light Department and City Engineer's Department, shall be removed from office after January 1st, 1907, only under charges of incompetency, neglect of duty, offensive partisanship or conduct prejudicial to public interests, properly preferred before the City Council, and upon the vote of two thirds of the members thereof.

All full terms of office shall commence on the second Tuesday after the City election, and all officers elected or appointed shall hold office until their successors are elected or appointed and qualified, unless removed under charges as above provided for. Provided that this amendment shall not become effective unless the amendments to Sections 8 and 216 submitted concurrently herewith shall also be adopted. And provided further, that should the number of officers and employees in any department at any time exceed the number fixed by the City Council, the head of such department may reduce his force to the required number by peremptory discharge.

SECTION 8, ARTICLE 2:  
No person shall be eligible to any elective office in the City while holding any other office under the City Government, or who at the time of his election is not a citizen of the United States and a qualified elector according to the laws of the State of Washington and the Charter of the City of Tacoma, Nor shall any person be eligible for election to the City Council except he be a resident of the ward from which he is elected.

SECTION 216, ARTICLE 21:  
All elective officers provided for by this Charter shall receive in full compensation for all services of whatsoever kind rendered by them, the following salaries, which shall be payable monthly in warrants drawn on the Salary Fund:

- Mayor \$2,000 per annum.
- City Treasurer, \$2,400 per annum.
- City Controller, \$2,000 per annum.
- Councilmen, each, \$300 per annum.

The City Council shall fix by ordinance the salary of all other officers and employees provided for by this Charter or that may be created by ordinance; provided that all ordinances fixing salaries shall receive the votes therefor of at least two-thirds of all members of the City Council.

PARAGRAPH 9, SECTION 52, ARTICLE 3:  
To authorize or prohibit the locating and constructing of any railroad or street railroad in any street, alley or public place in the City, and to prescribe the terms and conditions upon which any such railroad or street railroad shall be located or constructed; provided, that no franchise shall be granted to any street railway company, or other railway company, except the same contain a condition that such company or corporation shall pave and improve the street over which said street railway company, or other railway company, lays or has laid its track or tracks between the two outer rails of said track or company, and at their own expense as the street shall be improved by the City and within thirty days from its improvement by the City, and shall repave such part of such street whenever and as often as the City shall repave and in the same manner and with the same material and at their own expense, and whenever any such franchise is granted giving the privilege of constructing a double railway track or street railway track upon any street, avenue or alley, the same shall contain the further provision that in case the grantee elect to lay a single track, the right to lay any additional track on such street shall be forever forfeited in case such street or any part thereof be thereafter permanently paved, unless such grantee pave in addition to the space between the rails of such single track and two feet on each side outside of said rails, the space which would be occupied by an additional track and the space between such space and the track already laid and for two feet outside of what would be the outer rail of such additional track, in the same manner and with the same material as the City paves or repaves the said street and at their own cost and expense, and every franchise hereafter granted for the purpose of constructing a railway track or street railway track shall require the grantee to plank all the space between the rails and between the tracks of such railway or street railway on all graded streets where the same are not paved with permanent pavement, and to keep such planking in good repair throughout the term of such franchise, or until such street is permanently paved, and every such franchise shall contain a requirement that any pavement torn up or damaged by the grantee, its successors or assigns, in the work of constructing such track or tracks, shall be replaced at the sole cost and expense of such grantee, its successors or assigns, in as good condition and with the same kind of material as it was before such track or tracks were laid; and provided further that no franchise shall be granted to any person, company or corporation, unless the same contain a provision providing for a

revenue to the City from the person, company or corporation holding said franchise, and also providing that the City shall at any time have the right to appropriate by purchase, at a reasonable price, the property of said person, company or corporation; to provide for the alteration, change of grade or removal thereof; to regulate the moving and operation of railroad and street railroad trains, cars and locomotives within the corporate limits, and to provide for the protection of persons and property against injury in the use of such railroads, or street railroads, and to fix the rate of fare.

## SECTION 95, ARTICLE 9 as amended by SECTION 1, AMENDMENT 18:

He shall not loan any of the funds of the City to any person or otherwise dispose of the same, except in accordance with law. He shall keep such funds and be responsible therefor; he may deposit moneys received by him, by virtue of his office, in one or more banks in the City of Tacoma, which banks shall have been established and doing business in said City for at least three years prior to such deposits; provided, however, that he shall not have on deposit more than \$150,000 in any one bank at any time, and in no case more than 50% of such money in any one bank; and provided further, that every such bank in which he deposits any of such moneys, shall be first required to execute to the City a bond with some surety, guaranty, indemnity or insurance company, organized and empowered by law to give such bonds and authorized by law to do business in the State of Washington, as surety, in a penal sum equal to the maximum amount deposited in any such bank, conditioned to save the City harmless from loss by reason of such deposit during all the time that such money or any part thereof shall so remain on deposit in such bank, and such bond shall be approved and filed in the same manner as the official bond of such Treasurer; provided further, that such bank shall be required to pay to the City interest on the daily balances of such deposits at the rate of not less than 1 1/2% per annum as long as the same or any part thereof remains so on deposit in any such bank, said interest payments to be payable monthly.

Nothing in this section shall be construed so as to relieve said Treasurer, or his official bondsmen, from any liability for any loss of such moneys.

## SECTION 135 of ARTICLE 12 as amended by AMENDMENT 20:

All applications for establishing or changing the grade of any street or streets, the improvement of public grounds or buildings, the laying out, establishing, opening, vacating, closing, straightening, widening or improvement of any street, road or highway, or for the construction of any bridge or viaduct, or the laying out or opening of any new street through public or private property, and for all public improvements which involve the necessity of taking private property for public use, or where any part of the cost or expense thereof is to be assessed upon private property, shall be made to said Commissioner, and such work or improvement shall not be ordered or authorized until after he shall have reported to the City Council upon said application. But before any work or improvements as above contemplated shall be commenced, the City Council, when recommended by the Commissioner of Public Works, shall pass a resolution ordering that said work be done, provided that all applications for the purpose of changing the grade, or of making any improvements upon any street, avenue or alley, within the City shall be signed by the owners of more than one-half of the property abutting on said street, avenue or alley; provided, however, that the City Council may without petition or recommendation have power to order the improvement of any street, avenue or alley, or any part thereof, or the building of any bridge or viaduct, by a two-thirds vote of all the members of the City Council.

## SECTION 136, ARTICLE 12, as amended by AMENDMENT 31:

Upon the adoption or passage of any resolution by the City Council for the improvement of any street, avenue or alley, or for the construction of any bridge or viaduct, the Commissioner of Public Works shall cause a survey, diagram and estimate of the entire cost thereof to be made by the City Engineer; said diagram and estimate shall be filed in the office of the Commissioner of Public Works for the inspection of all persons interested therein. The Clerk of said Commissioner shall forthwith cause a notice of such filing to be published daily for five days in the official newspaper; such notice shall contain a copy of the said resolution passed by the City Council, and must specify the street, highway, avenue or alley, or part thereof, proposed to be improved, and the kind of improvement proposed to be made, together with the estimated cost and expense thereof, and also a general description, sufficient for identification of the property to be charged with the expense of making such improvement, and that if sufficient remonstrance be not made before the expiration of fifteen days after the date of the last publication, said improvement will be made at the expense of the owners of the lots and parcels of land described in said notice, as hereinafter provided; but if within fifteen days after the final publication of said notice the persons owning one-half or more of the lots or parcels of land to be taxed for said improvement shall file with the Clerk of the Commissioner of Public Works, a remonstrance against said improvement, grade or alteration, the same shall not be made at the expense of the owners of the lots so described unless the City Council, by a two-thirds vote of all the members thereof, order said improvement made notwithstanding said remonstrance.

## SECTION 138, ARTICLE 12:

The cost and expense of making any improvement shall be assessed upon the adjoining, contiguous or proximate lots or parcels of land benefitted thereby, or upon any other property benefitted thereby, in the following manner: The Commissioner of Public Works shall examine all the property embraced in said assessment district and ascertain and determine what benefits will result to each and every lot and parcel of said land; and after such examination and determination shall make out an assessment roll charging the lots, blocks, and parcels of land in said assessment district which have been benefitted by said improvement to the extent of their proportionate part of such cost and expense and in an equitable manner in proportion to the special benefits resulting to each lot and parcel; and in no case shall the amount so charged against any lot or parcel be in excess of the benefits resulting therefrom. And in making said assessment, when said Commissioner of Public Works finds and determines that an assessment by the front foot will result in charging said lots and parcels of land equitably and fairly in proportion to the benefits resulting to each respectively, he may apportion such cost and expense in accordance with the number of lineal feet of said real estate or lots of land fronting on said improvement as aforesaid. The

JAN 17 1906

amount apportioned to be paid on each lineal foot fronting on said improvement shall be paid by the adjoining, contiguous or proximate property, as follows: Lots abutting endwise upon any street to be improved shall be assessed the full amount as determined by their foot frontage; any lot or parcel of land lying directly and lengthwise along the line of improvement at any street corner or intersection shall be assessed one-half of the amount as determined by its frontage, and the remaining one-half assessed upon the lots to the center of the block; if the land be unplatted and belong to the same person or persons, then the first twenty-five feet lying directly and lengthwise along the line of improvement shall be assessed one-half the amount as determined by its frontage, and the remaining one-half to the depth of one hundred and fifty feet from the proposed improvement; provided, however, that, if the parcel of land fronting along said proposed improvement and belonging to any one person shall be less than twenty-five feet, the said strip shall bear one-half of the expense of said improvement as determined by its frontage, and the remaining one-half assessed upon the balance of said property to the depth of one hundred and fifty feet; and provided further, that any parcel of land in V or triangular shape, the angle of which is adjoining, contiguous or proximate to the line of improvement, shall be considered as a lot having twenty-five feet front on the improvement. And provided that the several amounts charged against said lots respectively shall in no case be in excess of the benefits resulting to the same from such improvement. And whenever the manner of making such assessment by the front foot as herein specified shall not result in a fair and equitable division and apportionment of such costs and expenses upon the benefitted property, in proportion to the special benefits resulting to each lot or parcel of land, and in all cases where the improvement shall consist of the construction of a bridge or viaduct as that manner, then the said Commissioner of Public Works shall not make said assessment in that manner, but shall adopt such a plan or manner of dividing and apportioning the said costs and expenses and charging the same upon the several lots and parcels of land in the assessment district benefitted by said improvement, as will be fair and equitable, and will make the charges against each lot and parcel of land respectively proportionate to the benefits resulting to each and so that in no case shall the charge against any lot or parcel of land be in excess of the benefits resulting thereto.

## AMENDMENT TO AMENDMENT 13:

The City of Tacoma shall have power, by ordinance, to grant franchises for the transmission of power, heat, gas, electricity and all other forms of force, heat or light; to fix the rates to be charged by all persons within the City furnishing power, heat, gas, electricity, telephone service and all other similar services; to prohibit the stranding of wires for electrical purposes over and above or under the streets or alleys of the City of Tacoma; to require all electric wires and apparatus to be placed underground in a safe and proper manner, and to require any and all poles erected for electrical or other purposes within the City of Tacoma to be removed; to lay down, own, manage and charge trackage for the use of street car tracks over any bridge or bridges or any other public place in the City of Tacoma; provided, that, when any person or corporation holding a franchise for the locating, constructing or operating of a railroad over the portion of any street, and said franchise has not expired, shall subsequently apply for a franchise to locate, construct or operate a railroad on any other portion of the same street or upon any other street in connection therewith, said second franchise shall only be granted for the unexpired term of the first franchise; and provided, further, that no franchise heretofore or hereafter granted by the City of Tacoma shall be assigned by the person receiving the same without the consent of the City of Tacoma given by ordinance, and provided, further, that the City of Tacoma shall not in any case grant an exclusive franchise or monopoly to any person or corporation.

## AMENDMENT NO.

No street railway company or any corporation or person whatsoever shall ever be permitted to locate, construct, maintain or operate any street railway track or tracks along, across, upon or over any bridge, viaduct or tunnel within the City of Tacoma which shall have been built by said City, unless or until it shall have paid into the City Treasury of the City of Tacoma a sum equal to at least one-half of the original cost of the construction of any such bridge, viaduct or tunnel; and no franchise shall hereafter ever be granted to any person, company or corporation for the purpose of constructing, maintaining, or operating any such street railway line unless the same contain a requirement that such person, company, firm or corporation shall pay at least one-half of the cost of repairing and maintaining, at all times throughout the term of such franchise, any bridge, viaduct or tunnel along, over, upon or across which any track or tracks of such street railway shall pass, and the further provision that in case it shall become necessary in the judgment of the City Council to rebuild or reconstruct any such bridge, viaduct or tunnel during the term of such franchise the grantee therein, its successors and assigns, shall pay at least one-half of the cost of such rebuilding or reconstruction of any such bridge, viaduct or tunnel, and the determination of the City Council of the City of Tacoma as to when, how and with what material such repairs or reconstruction, or rebuilding shall be made shall be final and conclusive, and such work shall be done under the direction of the Commissioner of Public Works of said City according to plans and specifications which shall be prepared by the City Engineer of said City, and approved by the City Council.

In case the construction of any such street railway line shall necessitate or require the construction or reconstruction of any bridge, viaduct or tunnel, the entire cost of such construction or reconstruction shall be paid in the first instance by the grantee in such franchise, its successors or assigns, and any such bridge or viaduct shall be of such a width and manner of construction as may be required by the City Council, so as to constitute a thoroughfare for the public for all ordinary purposes.

The City Council of the City of Tacoma is hereby prohibited from passing, and the Mayor of said City is hereby prohibited from approving, any ordinance granting any street railway franchise or any amendment of any street railway franchise which shall not contain each and all of these provisions and requirements, and any such franchise not containing each and all of these requirements is hereby declared to be absolutely null and void.

The Special Committee on Investigation of City Officials submitted the following report:

Tacoma, Wash, January 31, 1906.  
 To the Honorable City Council,  
 of the City of Tacoma.

gentlemen:  
 We, your special committee appointed to investigate rumors and charges of graft and corruption and wrongful acts in the offices and officers of the City of Tacoma, beg leave to report as follows:

We have had the City Controller, W.C.D. Atkins, check up every record in the office of the Commissioner of Public Works and his report shows, and we find, everything in that particular regular.

We have held three sessions of the committee for the purpose of taking evidence. All the members of what is known as the "Committee of Twelve" were subpoenaed and the majority of that committee appeared before this committee in its executive session held on Monday evening, January 29th, 1906.

The committee, through its spokesman, Harvey L. Johnson, detailed at length the charges which the committee make and have made against certain city officials. We find absolutely no evidence against Mayor George P. Wright, and so far as we are advised, his official duty has been regular and honest and we have no evidence produced before us which would justify or verify any rumors or charges of graft, dishonesty or corruption. The same is true of the Commissioner of Public Works, Mr. William Welsh.

The only evidence produced against anyone was against James J. Conrad, a member of this council; that evidence was the testimony of Harvey L. Johnson, and the testimony of A.M. Richards a member of this Council, who swear that they overheard a conversation between George Milton Savage and said James J. Conrad, in the office of said Savage, at which time and place Conrad solicited a bribe from Savage to influence his action with reference to street paving. These two witnesses state that a third party was present and heard this conversation between Mr. Conrad and Mr. Savage, but they refuse positively to divulge his name to this committee and we did not learn it.

We herewith present and make a part of this report, the report of the City Controller relating to the Commissioner's Office and will later produce a complete transcript of the testimony taken before our committee and ask to have it made a part of this record.

We recommend that the evidence, records and report herein referred to be held subject to the call of the County Attorney of Pierce County, Washington.

We further request that our committee be discharged.

Respectfully submitted.

L. L. Doud, Chairman.  
 Frank M. Lambert.  
 Otto Duevel.  
 J. H. Hawthorne.

Adopted on roll call. Yeas 11. Doud, Duevel, Giblett, Hawley, Hawthorne, Hoenig, Lambert, Read, Usher, Wright, Mr. President. Nays 4. Christoffersen, Richards, Salmson, Whitman.  
 Excused from voting 1. Conrad.

UNFINISHED BUSINESS.

This being the time set for hearing appeals from the assessment and assessment roll in the matter of the improvement in Local Improvement District No. 226, and it appearing that no objections have been made to said assessment or assessment roll, and no appeal taken therefrom; and after due deliberation and consideration of said assessment by the City Council, on motion of Hawley, it was unanimously decided and determined to approve and confirm said assessment and assessment roll; and the City Attorney was directed to prepare an ordinance confirming and approving the same for introduction and passage by the City Council, which was done accordingly.

This being the time set for hearing appeals from the assessment and assessment roll for the improvement of South Cedar Street, from South 62nd Street to the north line of Lookout Park Addition, constituting Local Improvement District No. 225, the following appeal was taken from the table for consideration, viz: The joint appeal of P. K. Swearingen, Arthur Miller, Geo. Laskey & C. S. Enger, representing Lots 15 & 16, Block 16; Lots 17 & 18, Block 16; Lots 21 to 24 inc. Block 16 & Lots 1 to 8 inc. Block 23, respectively, all in Monticello Park Addition, in the City of Tacoma. And the appeal was by the Clerk read in full to the City Council, and the questions raised and the objections urged in said appeal were brought on for hearing before the City Council as a body. And after the questions suggested and the objections urged in said appeal had been duly and fully considered by said City Council, upon motion of Hawley, duly seconded, it was ordered that the objections presented by said

JAN 31 1906

appeal be each and all overruled and the prayer thereof denied, and that said assessment and assessment roll be approved and confirmed, and the City Attorney was directed to prepare an ordinance in due form for the approval and confirmation of said assessment roll which was done accordingly.

On motion of Hawley the Council reverted in order of business to

The following report from the Advisory Committee of twenty-five citizens was received: Tacoma, Wash. Feb. 20, 1906.

Hon. City Council, City of Tacoma, Gentlemen:

We, your Committee, appointed to investigate the question of a permanent water supply for the City, herewith submit our report for your consideration. The question as to what is the best source of supply has been investigated and reported upon by numerous engineers, both for the City and for private parties; these reports together with the information obtainable from the City Engineer's Office, constitute the data from which we reach our conclusion. We make no pretense of having, in a few days, solved the "water question", but have endeavored to express what, to us, seems to be in the main, the consensus of the opinions of the experts who have investigated and reported upon the subject.

In selecting a source, the City should be sure of a supply, not only ample for all present needs, but also for a considerable time to come. It has been the general experience

of cities, that sufficient allowance for their growth has seldom been made when their water systems were designed. Our neighbors, Portland and Seattle, are cases in point, as we are informed that they are both facing the necessity of soon having to duplicate, or at least add to systems completed only a few years ago. Such mistakes are expensive, so 50,000,000 gallons a day is the amount we recommend should be provided for. We also feel that owing to the present very inadequate supply, the question of the time probably necessary for the completion of a new system is a great factor to be taken into consideration in selecting a new source.

As to the choice between a gravity and a pumping proposition, the City Engineer has informed us that the electric power alone necessary to pump daily, 10,000,000 gallons at South Tacoma, to each of the two reservoirs, and 10,000,000 gallons more to the stand pipe, or 30,000,000 gallons in all, would cost \$146,000 a year at the best rate offered in the last bids called for by the City, viz: .0125 per K.W.hour. In addition to this would be the cost of operation, and interest on the first cost of the necessary plant. Apparently the cheapest source for this sort of supply, is from the wells at South Tacoma, but the amount of water to be gotten there is, at best, problematical, and its cost, in our opinion, renders its favorable consideration impossible.

Three gravity propositions have been presented to us, viz: The Green River, the Green Water and Clear Water Rivers, and the proposal of the Mount Tacoma Water Supply Company, who would get their water from a number of streams flowing into the Carbon and Mowich Rivers. From consideration of the information at our disposal, we have arrived at the conclusion that the Green River is the only source which can, under existing conditions, be favorably considered, the following facts making the other two propositions undesirable.

Taking up first the Mount Tacoma Water Supply Company's plan, as before mentioned, they propose to take water from a number of comparatively small streams in two different water sheds, which may be designated as the Carbon and Crater Lake sheds. Their estimates of the minimum flow of these streams are greatly in excess of the measurements of the City Engineer's office, and our present Engineer and also one of his predecessors, both having personal knowledge of these streams, have told your Committee that sufficient water is not there to enable the Company to at all times deliver a supply of 30,000,000 gallons a day. We are also informed by counsel of the Puget Sound Power Company, who have a power plant at Electron on the South Fork of the Puyallup, into which the Crater Lake district water ultimately finds its way, that as soon as the machinery now being installed, is in place they will head and use all the water coming down the river, and will certainly prevent the taking of any portion of it by anybody whatsoever. The same condition may exist on the Carbon River side as certain parties have water rights at Fairfax and Carbonado, which, we are informed, they claim will be interfered with if any water is diverted. For these reasons it would probably be possible for the Mount Tacoma Water Supply Company to deliver water only after long delay, if at all. Another objection to this scheme is, the proposed use, for a considerable distance, of a covered flume, which is subject to pollution, instead of stave pipe, and also the expectation of using a good deal of trestle work, all of which is, in our opinion, an undesirable form of construction, it being expensive to maintain, and subject to destruction by falling trees or slides.

The Green Water and Clear Water Rivers have a combined daily flow of about 72,000,000 gallons of excellent quality; their water shed too, is almost wholly in the Mount Tacoma Forest Reserve, which would keep it free from the chance of being polluted in the future. Aside from the two facts that the flow is only about one-half that of Green River, and that on account of water rights now held, or claimed by several companies on White River, into which these two streams flow, it seems certain that a supply could be gotten there only after long litigation, and the payment of heavy damages; it would be an almost ideal source of supply, and before a final adverse decision is made, we would recommend that further investigation of the City's rights as against those of these companies be made by the City Attorney. If, however, as we believe, an attempt to use it will mean a long, costly and uncertain fight in the Courts, we do not believe the City should favorably consider it. This brings us to the Green River, which has a minimum daily flow of about 160,000,000 gallons near the proposed intake. The line as planned, is somewhat cheaper than either of the others and the water is naturally wholesome and pure. The City has rights which we think would permit it to build without litigation, and work could be begun without undue delay. If the City should lose the right it thinks it now possesses to these waters, it would undoubtedly find it most expensive to again secure them, as it would probably find itself in the position it apparently now occupies with regard to the Green Water and Clear Water Rivers, which, as we have already stated, would be an almost ideal source of supply, could the right to so use them be obtained.

While recommending the Green River as the best available source of supply for the City, we are aware that for this purpose it is open to the objection that the sewage from Lester and the Hot Springs Sanitarium discharges directly into it some eighteen miles above the proposed intake. It is a well established fact that sewage, when discharged into a relatively large body of rapidly flowing pure water, immediately begins a process of self purification or oxidation, which process continues till the sewage completely disappears; the time and distance necessary to accomplish this result varies greatly, depending principally upon the relative volume of the sewage to the water in the river, the rapidity of the current, nature of the river bed etc.

Your Committee believe that in the case in question, it is possible that complete purification has taken place before the proposed intake is reached, and it is a fact that in none of the bacterial examinations of the water which have recently been made by the City Bacteriologist, from samples taken above the intake, was any trace of such sewage been found. To prevent any possible contamination or the carrying of any disease germs from that source, however, we are of the opinion that no sewage or waste water from the sanitarium should be discharged into the river. A sewer line could be built from Lester to a point below the proposed intake, into which all sewage or waste water in that section would discharge. Such a line may be advisable, and we are informed its cost would be about \$100,000 for an 8" pipe. As to contamination from the trains, nothing goes directly into the river, nor even indirectly into it, until after going through more or less of a filtering and purifying process through the soil, and with proper precautions all danger from this source can be removed.

We therefore advise the City Council that from consideration of the facts and information presented to us, the Green River is in our opinion now the best available source from which a water supply can be secured for this City.

Respectfully submitted,

John Hartman  
Secretary.

Chester Thorne  
Chairman.

On motion of Giblett the Council resolved itself into COMMITTEE OF THE WHOLE to consider the foregoing report:

At 10:00 o'clock p.m. the committee rose and reported back the report of the Advisory Committee and recommended that it be adopted with the following changes, viz:

First: That the Green River be selected definitely as the City's source of water supply.

Second: That the present supply be limited to and made 40,000,000 gallons per day.

Report adopted.

On motion of Whitman the proper officers were instructed to prepare proper ordinances for submitting the above proposition to the people, at the next election.

On motion the Council then adjourned.

Attest: L.M. Rogers  
City Clerk.

WHEREAS the Clerk of said Commissioner of Public Works has caused due notice of the filing of said survey, diagram and estimate to be published daily for five days in the official newspaper of the City of Tacoma, which notice contained a copy of said resolution, and specified the part of said Thompson Avenue proposed to be improved, the kind of improvement proposed to be made, together with estimated cost and expense thereof, and also a general description, sufficient for identification, of the property to be charged with the expense of making such improvement; and

WHEREAS fifteen days have elapsed since the last publication of said notice and no remonstrance against said improvement has been made or filed in the office of said Commissioner of Public Works by any of the owners of any of said lots or parcels of land to be specially taxed for said improvement, nor by any other person; and the time for making and filing remonstrances has expired; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:  
That said work and improvement be done and made, and the Commissioner of Public Works is hereby instructed to let the contract for said improvement and to proceed therewith according to the provisions of the City Charter and said Ordinance No. 1382.

Adopted on roll call. Yeas 15. Nays 0. Absent 1. Lamborn.

RESOLUTION

By Hawley.

Be it resolved, by the City Council of the City of Tacoma, that South 43rd Street and South "N" Street, from the center of Park Avenue to Asotin Street, in the City of Tacoma, be improved in the manner hereinafter described, and that the cost and expense of

making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefitted thereby, in accordance with the laws of the State of Washington and Ordinance No. 1382 of the City of Tacoma; said assessment to become due and payable at the option of the property owners in five equal annual installments, with interest at the rate of seven (7) per cent. per annum on deferred payments.

Said improvement shall consist in grading said portions of said streets to the established grade with a roadway one-half the width of said streets, and a parking and sidewalk space on each side thereof one-fourth the width of said streets, and in laying down on said parking and sidewalk space sidewalks of plank five (5) feet in width. Said improvement shall also consist in constructing curbs and gutters, crosswalks and the necessary storm water drainage.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots will be benefitted by said improvement, and shall constitute a local improvement district, to be known and designated as "Local Improvement District No. 307" against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

- Lots 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, Blocks 9116, 9117, 9118, 9119, 9120, 9121, 9122, 9123, 9124, 9125, 9126, 9127, 9128, 9129;
  - Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, Blocks 9216, 9217, 9218, 9219, 9220, 9221, 9222, 9223, 9224, 9225, 9226, 9227, 9228, 9229,
- Tacoma Land Co's 6th Addition to Tacoma.

All the lots in blocks 47, 48, 49 and 50, all in Oakes Addition to Tacoma.

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement to be made and filed in his office and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Yeas 15. Nays 0. Absent 1. Lamborn.

**RESOLUTION**  
No. 307.

Be it resolved by the City Council of the City of Tacoma, that South 25th Street from Jefferson Street to the center line of Perry Street, except that part occupied by Bridge No. 14, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefitted thereby in accordance with the laws of the State of Washington and Ordinance No. 1382 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in five equal annual installments, with interest at the rate of seven (7) per cent. per annum on deferred payments.

Said improvement shall consist in grading said portion of said South 25th Street to the established grade with a roadway forty (40) feet in width, with a parking and sidewalk space on each side thereof twenty (20) feet in width. Said improvement shall also consist in constructing sidewalks of Cement Concrete six (6) feet in width from Tacoma Avenue to "G" Street and from Yakima Avenue to "K" Street, and sidewalks of plank six (6) feet in width from "G" Street to Yakima Avenue and from "K" Street to Perry Street.

Said improvement shall also consist in constructing the necessary curbs and gutters, crosswalks and storm water drainage.

RESOLUTION

By Hawley.

Be it resolved by the City Council of the City of Tacoma, that "D" Street from South 7th Street and the present pavement on St. Helen's Avenue, to Jefferson Street, and that part of the intersection of St. Helen's Avenue and South 9th Street, not paved, except that part to be paved by the Tacoma Railway and Power Company under its franchise, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining contiguous and proximate lots and parcels of land benefitted thereby in accordance with the laws of the State of Washington, and Ordinance No. 1382 of the City of Tacoma; said assessment to become due and payable at the option of the property owners in ten (10) equal annual installments, with interest at the rate of seven (7) per cent. per annum on deferred payments.

Said improvement shall consist in grading said "D" Street and intersection of St. Helen's Avenue and South 9th Street to the established grade with a roadway fifty (50) feet in width, and in laying down on said streets a permanent pavement of asphalt with brick gutters on a concrete base, except on street intersections where the pavement shall consist of sandstone blocks with brick gutters on a concrete base.

Said improvement shall also consist in constructing concrete and granite curbs and the necessary storm water drainage, also in extending all walks to the curb, taking up and relaying the same when necessary.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 264" against which the cost and expense of making said improvement, shall be charged by special assessment, to-wit:

All the lots in Blocks 703, 807, 907, 908, 1107, 1108, 1307, 1308, 1507, 1508, 1707, 1708, 1907, 1908  
Lots 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24 and 25, in Block 706,  
All in Map of New Tacoma, W.T.  
Lots 4 and 5, in Block 1907,  
Lots 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, and 24,  
in Block 1908, All in Burns and Blinn's Addition.

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in his office, and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Yeas 16. Nays 0. Absent 0.

RESOLUTION  
No. 676

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That the Commissioner of Public Works be and he is hereby instructed and directed to place a street arc light at the intersection of South 28th and "K" Streets.

Adopted.

RESOLUTION  
No. 677

By Hawley.

Be it resolved by the City Council of the City of Tacoma, that Sixth Avenue, from the present pavement on "C" Street to the center line of Warner Street, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefitted thereby in accordance with the laws of the State of Washington and Ordinance No. 1322 of the City of Tacoma; said assessment to become due and payable at the option of the property owners in ten (10) equal annual installments, with interest at the rate of seven (7) per cent. per annum on deferred payments.

Said improvement shall consist in grading said portion of said Sixth Avenue to the established grade, with a roadway from "C" Street to "E" Street thirty (30) feet in width,

and from "E" Street to Warner Street fifty (50) feet in width, and laying down on said portions of said street a permanent pavement of asphalt on a concrete base, except from "C" Street to "E" Street, and from "J" Street to "K" Street where the pavement shall consist of sandstone blocks on a concrete base. All of said pavements to have brick gutters together with concrete and granite curbs, and the necessary storm water drainage.

Provided that that part of said Sixth Avenue to be paved by the Tacoma Railway & Power Company under its franchise, and the intersections of St. Helen's Avenue and Tacoma Avenue, already paved, are not included in this improvement.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 263", against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

RESOLUTION No. 3631 By Salmons.

WHEREAS the City Council of the City of Tacoma did, on January 17th, 1906, pass a resolution of intention to submit certain proposed amendments to the City Charter of the City of Tacoma to the proposed voters of said city, and

WHEREAS said proposed amendments to the City Charter have been published in full in the Tacoma Daily Ledger, the official newspaper of the City of Tacoma, for a period of thirty days, which said proposed amendments are as follows; to-wit:

SECTION 7, ARTICLE 2:

The term of all elective officers shall be two years and until their successors are duly elected and qualified. All other officers shall hold office at the pleasure of the duly elected and qualified. All other officers, other than those hereinafter appointed, shall be in the Fire Department, Water and Light Department and City Engineer's Department, shall be removed from office after January 1st, 1907 only under charges of incompetency, neglect of duty, offensive partisanship or conduct prejudicial to public interests, properly preferred before the City Council, and upon the vote of two thirds of the members hereof.

All full terms of office shall commence on the second Tuesday after the City election, and all officers elected or appointed shall hold office until their successors are elected and all officers elected or appointed shall hold office as above provided for. Provided or appointed and qualified, unless removed under charges as above provided for. Provided that this amendment shall not become effective unless the amendments to Sections 8 and 216 submitted concurrently herein shall also be adopted. And provided further, that should the number of officers and employees in any department at any time exceed the number fixed by the City Council, the head of such department may reduce his force to the required number by peremptory discharge.

SECTION 8, ARTICLE 2:

No person shall be eligible to any elective office in the City who holds any other office under the City Government, or who at the time of his election is not a citizen of the United States and a qualified elector according to the laws of the State of Washington and the Charter of the City of Tacoma. Nor shall any person be eligible for election to the City Council except he be a resident of the ward from which he is elected.

SECTION 216, ARTICLE 21.

All elective officers provided for by this charter shall receive in full compensation for all services of whatsoever kind rendered by them, the following salaries, which shall be payable monthly in warrants drawn on the Salary Fund:

- Mayor, \$2,000 per annum.
- City Treasurer, \$2,400 per annum.
- City Controller, \$2,000 per annum.
- Councilmen, each, \$500 per annum.

The City Council shall fix by ordinance the salary of all other officers and employees provided for by this charter or that may be created by ordinance; provided that all ordinances fixing salaries shall receive the votes thereof of at least two thirds of all members of the City Council.

PARAGRAPH 9, SECTION 52, ARTICLE 3:

To authorize or prohibit the locating and constructing of any railroad or street railroad in any street, alley or public place in the City, and to prescribe the terms and conditions upon which any such railroad or street railroad shall be located or constructed; provided, that no franchise shall be granted to any street railway company, or other railway company, except the same contain a condition that such company or corporation shall pave and improve the street over which said street railway company, or other railway company, lays or has laid its track or tracks between the two outer rails of said track or tracks and for a space of at least two feet on each side outside of said outer rails in the same manner and at their own expense as the street shall be improved by the City and within thirty days from its improvement by the City, and shall repave such part of such street whenever and as often as the City shall repave and in the same manner and with the same material and at their own expense, and whenever any such franchise is granted giving the privilege of constructing a double railway track or street railway track upon any street, avenue or alley, the same shall contain the further provision that in case the grantee elect to lay a single track, the right to lay an additional track on such street shall be forever forfeited in case such street or any part thereof be hereafter permanently paved, unless such grantee pave in addition to the space between the rails of such single track and two feet on each side outside of said rails, the space which would be occupied by an additional track and the space between such space and the track already laid and for two feet outside of what would be the outer rail of such additional track, in the same manner and with the same material as the City paves or repaves the said street and at their own cost and expense, and every franchise hereafter granted for the purpose of constructing a railway track or street railway track shall require the grantee to plank all the space between the rails and between the tracks of such railway or street railway on all graded streets where the same are not paved with permanent pavement, and to keep such planking in good repair throughout the term of such franchise, or until such street is permanently paved, and every such franchise shall contain a requirement that any pavement torn up or damaged by the grantee, its successors or assigns, in the work of constructing such track or tracks, shall be replaced at the sole cost and expense of such grantee, its successors or assigns, in as good condition and with the same kind of material as it was before such track or tracks were laid; and provided further that no franchise shall be granted to any person, company or corporation, unless the same contain a provision providing for a revenue to the City from the person, company or corporation holding said franchise, and also providing that the City shall at any time have the right to appropriate by purchase, at a reasonable price, the property of said person, company or corporation; to provide for the alteration, change of grade or removal thereof; to regulate the moving and operation of railroad and street railroad trains, cars and locomotives within the corporate limits, and to provide for the protection of persons and property against injury in the use of such railroads, or street railroads, and to fix the rate of fare.

SECTION 95, ARTICLE 9 as amended by SECTION 1, AMENDMENT 18:

He shall not loan any of the funds of the City to any person or otherwise dispose of the same, except in accordance with law. He shall keep such funds and be responsible therefor; he may deposit moneys received by him, by virtue of his office, in one or more banks in the City of Tacoma, which banks shall have been established and doing business in said City for at least three years prior to such deposits; provided, however, that he shall not have on deposit more than \$150,000 in any one bank at any time, and in no case more than 50% of such money in any one bank; and provided further, that every such bank in which he deposits any of such moneys, shall be first required to execute to the City a bond with surety, guaranty, indemnity or insurance company, organized and empowered by law to give such bonds and authorized by law to do business in the State of Washington, as surety, in a penal sum equal to the maximum amount deposited in any such bank, conditioned to save the City harmless from loss by reason of such deposit during all the time that such money or any part thereof shall so remain on deposit in such bank, and such bond shall be approved and filed in the same manner as the official bond of such Treasurer; provided further, that such bank shall be required to pay to the City interest on the daily balances of such deposits at the rate of not less than 1-1/2% per annum as long as the same or any part thereof remains so on deposit in any such bank, said interest payments to be payable monthly.

Nothing in this section shall be construed so as to relieve said Treasurer, or his official bondsmen, from any liability for any loss of such moneys.

SECTION 135 of ARTICLE 12 as amended by AMENDMENT 20:

All applications for establishing or changing the grade of any street or streets, the improvement of public grounds or buildings, the laying out, establishing, opening, vacating, closing, straightening, widening or improvement of any street, road or highway, or for the construction of any bridge or viaduct, or the laying out or opening of any new street through public or private property, and for all public improvements which involve the necessity of taking private property for public use, or where any part of the cost or expense thereof is to be assessed upon private property, shall be made to said Commissioner, and such work or improvement shall not be ordered or authorized until after he shall have reported to the City Council upon said application. But before any work or improvements as above contemplated shall be commenced, the City Council, when recommended by the Commissioner of Public Works, shall pass a resolution ordering that said work be done, provided that all applications for the purpose of changing the grade, or of making any improvements upon any street, avenue or alley, within the City shall be signed by the owners of more than one-half of the property abutting on said street, avenue or alley; provided, however, that the City Council may without petition or recommendation have power to order the improvement of any street, avenue or alley, or any part thereof, or the building of any bridge or viaduct, by a two-thirds vote of all the members of the City Council.

SECTION 135, ARTICLE 12, as amended by AMENDMENT 31:

Upon the motion or passage of any resolution by the City Council for the improvement of any street, avenue or alley, or for the construction of any bridge or viaduct, the Commissioner of Public Works shall cause a survey, diagram and estimate of the entire cost thereof to be made by the City Engineer; said diagram and estimate shall be filed in the office of the Commissioner of Public Works for the inspection of all persons interested therein. The Clerk of said Commissioner shall forthwith cause a notice of such filing to be

published daily for five days in the official newspaper; such notice shall contain a copy of the said resolution passed by the City Council, and must specify the street, highway, avenue or alley, or part thereof, proposed to be improved, and the kind of improvement proposed to be made, together with the estimated cost and expense thereof, and also a general description, sufficient for identification of the property to be changed, with the expense of making such improvement, and that if sufficient remonstrance be not made before the expiration of fifteen days after the date of the last publication, said improvement shall be made at the expense of the owners of the lots and parcels of land described in said notice, as hereinafter provided; but if within fifteen days after the final publication of said notice the persons owning one-half or more of the lots or parcels of land to be taxed for said improvement shall file with the Clerk of the Commissioner of Public Works, a remonstrance against said improvement, grade or alteration, the same shall not be made at the expense of the owners of the lots so described unless the City Council, by a two-thirds vote of all the members thereof, order said improvement, notwithstanding said remonstrance.

SECTION 135, ARTICLE 12:

The cost and expense of making any improvement shall be assessed upon the adjoining, contiguous or proximate lots or parcels of land benefitted thereby, or upon any other property benefitted thereby, in the following manner: The Commissioner of Public Works shall examine all the property embraced in said assessment district and ascertain and determine what benefits will result to each and every lot and parcel of said land; and after such examination and determination shall make out an assessment roll charging the lots, blocks, and parcels of land in said assessment district which have been benefitted by said improvement to the extent of their proportionate part of such cost and expense and in an equitable manner in proportion to the special benefits resulting to each lot and parcel; and in no case shall the amount so charged against any lot or parcel be in excess of the benefits resulting therefrom. And in making said assessment, when said Commissioner of Public Works finds and determines that an assessment by the front foot will result in charging said lots and parcels of land equitably and fairly in proportion to the benefits resulting to each respectively, he may apportion such cost and expense in accordance with the number of lineal feet of said real estate or lots of land fronting on said improvement as follows: The amount apportioned to be paid on each lineal foot fronting on said improvement shall be paid by the adjoining, contiguous or proximate property, as follows: Lots abutting on a street to be improved shall be assessed the full amount as determined by the front foot frontage; any lot or parcel of land lying directly and lengthwise along the line of improvement at any street corner or intersection shall be assessed one-half of the amount of improvement at its frontage, and the remaining one-half assessed upon the person or persons then center of the block; if the land be unplatted and belong to the same person or persons, then the first twenty-five feet lying directly and lengthwise along the line of improvement shall be assessed one-half the amount as determined by its frontage, and the remaining one-half to the depth of one hundred and fifty feet from the proposed improvement and lengthwise to any one person or persons shall be less than twenty-five feet, the said strip shall bear to any one person or persons shall be less than twenty-five feet, and the remaining one-half of the expense of said improvement as determined by its frontage, and the remaining one-half assessed upon the balance of said property to the depth of one hundred and fifty feet; and provided further, that any parcel of land in V or triangular shape, the angle of which is adjoining, contiguous or proximate to the line of improvement, shall be considered as a lot having twenty-five feet front on the improvement. And provided that the several amounts charged against said lots respectively shall in no case be in excess of the benefits resulting to the same from such improvement. And whenever the number of making such assessments by the front foot as herein specified shall not result in a fair and equitable division and apportionment of such costs and expenses upon the benefitted property, in proportion to the special benefits resulting to each lot or parcel of land, or in all cases where the improvement shall consist of the construction of a bridge or viaduct as a separate improvement, then the said Commissioner of Public Works shall not make said assessment; in that manner, but shall adopt such a plan or manner of dividing and apportioning the said costs and expenses and charging the same upon the several lots and parcels of land in the assessment district benefitted by said improvement, as will be fair and equitable, and will make the charges against each lot and parcel of land respectively proportionate to the benefits resulting to each and so that in no case shall the charges against any lot or parcel of land be in excess of the benefits resulting therefrom.

AMENDMENT to AMENDMENT 13:

The City of Tacoma shall have power, by ordinance, to grant franchises for the transmission of power, heat, gas, electricity and all other forms of force, heat or light; to fix the rates to be charged by all persons within the city furnishing power, heat, gas, electricity, telephone service and all other similar services; to prohibit the stranding of wires for electrical purposes over and above or under the streets or alleys in the City of Tacoma; to require all electric wires and apparatus to be placed underground in a safe and proper manner, and to require any and all poles erected for electrical or other purposes within the City of Tacoma to be removed; to lay down, own, manage and charge tracks for the use of street car tracks over any bridge or bridges or any other public place in the City of Tacoma; provided, that, when any person or corporation holding a franchise for the locating, constructing or operating of a railroad over the portion of any street, and said franchise has not expired, shall subsequently apply for a franchise to locate, construct or operate a railroad on any other portion of the same street or upon any other street in connection therewith, said second franchise shall only be granted or the unexpired term of the first franchise; and provided, further, that no franchise heretofore granted by the City of Tacoma shall be assigned by the person receiving the same without the consent of the City of Tacoma given by ordinance and provided further, that the City of Tacoma shall not in any case grant an exclusive franchise or monopoly to any person or corporation.

AMENDMENT NO.

No street railway company or any corporation or person whatsoever shall ever be permitted to locate, construct, maintain or operate any street railway track or tracks along, across, upon or over any bridge, viaduct or tunnel within the City of Tacoma which

PARAGRAPH 9, SECTION 52, ARTICLE 3:

To authorize or prohibit the locating and constructing of any railroad or street railroad in any street, alley or public place in the City, and to prescribe the terms and conditions upon which any such railroad or street railroad shall be located or constructed; provided, that no franchise shall be granted to any street railway company, or other railway company, except the same contain a condition that such company or corporation shall pave and improve the street over which said street railway company, or other railway company, lays or has laid its track or tracks between the two outer rails of said track or tracks and for a space of at least two feet on each side outside of said outer rails in the same manner and at their own expense as the street shall be improved by the City and within thirty days from its improvement by the City, and shall repave such part of such street whenever and as often as the City shall repave and in the same manner and with the same material and at their own expense, and whenever any such franchise is granted giving the privilege of constructing a double railway track or street railway track upon any street, avenue or alley, the same shall contain the further provision that in case the grantee elect to lay a single track, the right to lay an additional track on such street shall be forever forfeited in case such street or any part thereof be thereafter permanently paved, unless such grantee pave in addition to the space between the rails of such single track and two feet on each side outside of said rails, the space which would be occupied by an additional track and the space between such space and the track already laid and for two feet outside of what would be the outer rail of such additional track, in the same manner and with the same material as the City paves or repaves the said street and at their own cost and expense, and every franchise hereafter granted for the purpose of constructing a railway track or street railway track shall require the grantee to plank all the space between the rails and between the tracks of such railway or street railway on all graded streets where the same are not paved with permanent pavement, and to keep such planking in good repair throughout the term of such franchise, or until such street is permanently paved, and every such franchise shall contain a requirement that any pavement torn up or damaged by the grantee, its successors or assigns, in the work of constructing such track or tracks, shall be replaced at the sole cost and expense of such grantee, its successors or assigns, in as good condition and with the same kind of material as it was before such track or tracks were laid; and provided further that no franchise shall be granted to any person, company or corporation, unless the same contain a provision providing for a revenue to the City from the person, company or corporation holding said franchise, and also providing that the City shall at any time have the right to appropriate by purchase, at a reasonable price, the property of said person, company or corporation; to provide for the alteration, change of grade or removal thereof; to regulate the moving and operation of railroad and street railroad trains, cars and locomotives within the corporate limits, and to provide for the protection of persons and property against injury in the use of such railroads, or street railroads, and to fix the rate of fare.

SECTION 95, ARTICLE 9 as amended by SECTION 1, AMENDMENT 18: He shall not loan any of the funds of the City to any person or otherwise dispose of the same, except in accordance with law. He shall keep such funds and be responsible therefor; he may deposit moneys received by him, by virtue of his office, in one or more banks in the City of Tacoma, which banks shall have been established and doing business in said City for at least three years prior to such deposits; provided, however, that he shall not have on deposit more than \$150,000 in any one bank at any time, and in no case more than 50% of such money in any one bank; and provided further, that every such bank in which he deposits any of such moneys, shall be first required to execute to the City a bond with some surety, guaranty, indemnity or insurance company, organized and empowered by law to give such bonds and authorized by law to do business in the State of Washington, as surety, in a penal sum equal to the maximum amount deposited in any such bank, conditioned to save the City harmless from loss by reason of such deposit during all the time that such money or any part thereof shall be on deposit in such bank, and such bond shall be approved and filed in the same manner as the official bond of such Treasurer; provided further, that such bank shall be required to pay to the City interest on the daily balances of such deposits at the rate of not less than 1-1/2% per annum as long as the same or any part thereof remains so on deposit in any such bank, said interest payments to be payable monthly.

Nothing in this section shall be construed so as to relieve said Treasurer, or his official bondsmen, from any liability for any loss of such moneys.

SECTION 135 OF ARTICLE 12 as amended by AMENDMENT 20: All applications for establishing or changing the grade of any street or streets, the improvement of public grounds or buildings, the laying out, establishing, opening, vacating, closing, straightening, widening or improvement of any street, road or highway, or for the construction or any bridge or viaduct, or the laying out or opening of any new street through public or private property, and for all public improvements which involve the necessity of taking private property for public use, or where any part of the cost or expense thereof is to be assessed upon private property, shall be made to said Commissioner, and such work or improvement shall not be ordered or authorized until after he shall have reported to the City Council upon said application. But before any work or improvements as above contemplated shall be commenced, the City Council, when recommended by the Commissioner of Public Works, shall pass a resolution ordering that said work be done, provided that all applications for the purpose of changing the grade, or of making any improvements upon any street, avenue or alley, within the City shall be signed by the owners of more than one-half of the property abutting on said street, avenue or alley; provided, however, that the City Council may without petition or recommendation have power to order the improvement of any street, avenue or alley, or any part thereof, or the building of any bridge or viaduct, by a two-thirds vote of all the members of the City Council.

SECTION 135, ARTICLE 12, as amended by AMENDMENT 31: Upon the adoption or passage of any resolution by the City Council for the improvement of any street, avenue or alley, or for the construction of any bridge or viaduct, the Commissioner of Public Works shall cause a survey, diagram and estimate of the entire cost thereof to be made by the City Engineer; said diagram and estimate shall be filed in the office of the Commissioner of Public Works for the inspection of all persons interested therein. The Clerk of said Commissioner shall forthwith cause a notice of such filing to be

published daily for five days in the official newspaper; such notice shall contain a copy of the said resolution passed by the City Council, and must specify the street, highway, avenue or alley, or part thereof, proposed to be improved, and the kind of improvement proposed to be made, together with the estimated cost and expense thereof, and also a general description, sufficient for identification of the property to be charged with the expense of making such improvement, and that if sufficient remonstrance be not made before the expiration of fifteen days after the date of the last publication, said improvement shall be made at the expense of the owners of the lots and parcels of land described in said notice, as hereinafter provided; but if within fifteen days after the final publication of said notice the persons owning one-half or more of the lots or parcels of land to be taxed for said improvement shall file with the Clerk of the Commissioner of Public Works, a remonstrance against said improvement, grade or alteration, the same shall not be made at the expense of the owners of the lots so described unless the City Council, by a two-thirds vote of all the members thereof, order said improvement, notwithstanding said remonstrance.

SECTION 138, ARTICLE 12: The cost and expense of making any improvement shall be assessed upon the adjoining, contiguous or proximate lots or parcels of land benefitted thereby, or upon any other property benefitted thereby, in the following manner: The Commissioner of Public Works shall examine all the property embraced in said assessment district and ascertain and determine what benefits will result to each and every lot and parcel of said land; and after such examination and determination shall make out an assessment roll charging the lots, blocks, and parcels of land in said assessment district which have been benefitted by said improvement to the extent of their proportionate part of such cost and expense and in an equitable manner in proportion to the special benefits resulting to each lot and parcel; and in no case shall the amount so charged against any lot or parcel be in excess of the benefits resulting thereto. And in making said assessment, when said Commissioner of Public Works finds and determines that an assessment by the front foot will result in charging said lots and parcels of land equitably and fairly in proportion to the benefits resulting to each and respectively, he may apportion such cost and expense in accordance with the number of lineal feet of said real estate or lots of land fronting on said improvement as follows: The amount apportioned to be paid on each lineal foot fronting on said improvement shall be paid by the adjoining, contiguous or proximate lots or parcels of land fronting on said improvement as follows: The full amount as determined by the front foot shall be assessed upon the lot or parcel of land lying directly and lengthwise along the line of their frontage; any lot or parcel of land lying at an angle to the line of frontage shall be assessed one-half of the amount of improvement at any street corner or intersection shall be assessed upon the lots to the as determined by its frontage, and the remaining one-half assessed upon the person or persons, and center of the block; if the land be unplatted and belong to the same person or persons, the first twenty-five feet lying directly and lengthwise along the line of improvement shall be assessed one-half the amount as determined by its frontage, and the remaining one-half to the depth of one hundred and fifty feet from the proposed improvement and belonging however, that if the parcel of land fronting along said proposed improvement shall be less than twenty-five feet, the said strip shall bear to any one person or persons shall be less than twenty-five feet, the said strip shall bear one-half of the expense of said improvement as determined by its frontage, and the remaining one-half assessed upon the balance of said parcel of land in V or triangular shape, the fifty feet; and provided further, that any parcel of land in V or triangular shape, the angle of which is adjoining, contiguous or proximate to the line of improvement, shall be considered as a lot having twenty-five feet front on the improvement. And provided that the several amounts charged against said lots respectively shall in no case be in excess of the benefits resulting to the same from such improvement. And whenever the amount of such benefits resulting to the same from such improvement shall not result in a fair and equitable division and apportionment of such costs and expenses upon the benefitted property, in proportion to the special benefits resulting to each lot or parcel of land, and in all cases where the improvement shall consist of the construction of a bridge or viaduct as a separate improvement, then the said Commissioner of Public Works shall not make said assessment in that manner, but shall adopt such a plan or manner of dividing and apportioning the said costs and expenses and charging the same upon the several lots and parcels of land in the assessment district benefitted by said improvement, as will be fair and equitable, and will make the charges against each lot and parcel of land respectively proportionate to the benefits resulting to each and so that in no case shall the amount charged against any lot or parcel of land be in excess of the benefits resulting thereto.

AMENDMENT TO AMENDMENT 13: The City of Tacoma shall have power, by ordinance, to grant franchises for the transmission of power, heat, gas, electricity and all other forms of force, heat or light; to fix the rates to be charged by all persons within the city furnishing power, heat, gas, electricity, telephone service and all other similar services; to prohibit the stringing of wires for electrical purposes over and above or under the streets or alleys in the City of Tacoma; to require all electric wires and apparatus to be placed underground in a safe and proper manner, and to require any and all poles erected for electrical or other purposes within the City of Tacoma to be removed; to lay down, own, manage and charge tracks for the use of street car tracks over any bridge or bridges or any other public place in the City of Tacoma; provided, that, when any person or corporation holding a franchise for the locating, constructing or operating of a railroad over the portion of any street, and said franchise has not expired, shall subsequently apply for a franchise to locate, construct or operate a railroad on any other portion of the same street or upon any other street in connection therewith, said second franchise shall only be granted or the unexpired term of the first franchise; and provided, further, that no franchise heretofore or hereafter granted by the City of Tacoma shall be assigned by the person receiving the same without the consent of the City of Tacoma given by ordinance and provided further, that the City of Tacoma shall not in any case grant an exclusive franchise or monopoly to any person or corporation.

AMENDMENT NO. No street railway company or any corporation or person whatsoever shall ever be permitted to locate, construct, maintain or operate any street railway track or tracks along, across, upon or over any bridge, viaduct or tunnel within the City of Tacoma which

MAR 7 - 1906

shall have been built by said city, unless or until it shall have been paid into the City Treasury of the City of Tacoma a sum equal to at least one-half of the original cost of the construction of such bridge, viaduct or tunnel and no franchise shall hereafter ever be granted to any person, company or corporation for the purpose of constructing, maintaining or operating any such street railway line unless the same contain a requirement that such person, company, firm or corporation shall pay at least one-half of the cost of repairing and maintaining, at all times throughout the term of such franchise, any bridge, viaduct or tunnel along, over, upon or across which any track or tracks of such street railway shall pass, and the further provision that in case it shall become necessary in the judgment of the City Council to rebuild or reconstruct any such bridge, viaduct or tunnel during the term of such franchise the grantee therein, its successors and assigns, shall pay at least one-half of the cost of such rebuilding or reconstruction of any such bridge, viaduct or tunnel, and the determination of the City Council of the City of Tacoma as to when, how and with what material such repairs, or reconstruction or rebuilding shall be made shall be final and conclusive, and such work shall be done under the direction of the Commissioner of Public Works of said city according to plans and specifications which shall be prepared by the City Engineer of said city, and approved by the City Council.

In case the construction of any such street railway line shall necessitate or require the construction or reconstruction of any bridge, viaduct or tunnel, the entire cost of such construction or reconstruction shall be paid in the first instance by the grantee in such franchise, its successors or assigns, and any such bridge or viaduct shall be of such a width and manner of construction as may be required by the City Council, so as to constitute a thoroughfare for the public for all ordinary purposes.

The City Council of the City of Tacoma is hereby prohibited from passing, and the Mayor of said city is hereby prohibited from approving any ordinance granting any street railway franchise or any amendment of any street railway franchise which shall not contain each and all of these provisions and requirements, and any such franchise not containing each and all of these requirements is hereby declared to be absolutely null and void; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA: That the above and foregoing amendments be and they are hereby adopted by this Council and shall be submitted to the qualified voters of the City of Tacoma at the City election to be held April 3rd, 1906, for their adoption or rejection, and that the City Attorney be, and he is hereby instructed to draw an ordinance submitting said proposed amendments to the voters at such time.

RESOLUTION by Hawley.

Be it resolved, by the City Council of the City of Tacoma, that the alley between "D" Street and "E" Street, from South 11th Street to South 21st Street, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots benefitted thereby, in accordance with the laws of the State of Washington and ordinance No. 1382 of the City of Tacoma; said assessment to become due and payable at the option of the property owners in five equal annual installments, with interest at the rate of seven per cent per annum on deferred payments. Said improvement shall consist in grading said alley to the established grade with a roadway twenty-eight (28) feet in width, and parking and sidewalk space on each side thereof six (6) feet in width, together with curbs and gutters, crosswalks and the necessary cedar curbs.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district, to be known and designated as "Local Improvement District No. 295" against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

- All the lots in blocks 1108, 1109, 1308, 1309, 1508, 1509, 1708, 1709, 1908 and 1909 all in Map of New Tacoma.

- All the lots in Blocks 1908 and 1909, all in Burns and Blinn's Addition to Tacoma.

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in his office and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Yeas 10. Nays 0. Absent 6. Christoffersen, Conrad, Duevel, Richards, Salmson, Wright.

RESOLUTION by Hawley.

Be it resolved, by the City Council of the City of Tacoma, that North 38th Street, from North Adams Avenue to North Proctor Avenue, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots benefitted thereby, in accordance with the laws of the State of Washington, and ordinance No. 1382 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in five equal annual installments, with interest at the rate of seven per cent per annum on deferred payments.

MAR 21 1906 906

Said improvement shall consist in grading said portion of North 38th Street to the established grade, with a roadway thirty (30) feet in width, and a parking and sidewalk space on each side thereof twenty five (25) feet in width; also in constructing on each side of said roadway curbs and gutters of plank.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district, to be known and designated as "Local Improvement District No. 311", against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

- Lots 1, 2, 3, 4, 5, 6, Block 11.
- Lots 7, 8, 9, 10, 11, 12, Block 12, all in Law's Addition to Tacoma.

The Commissioner of Public Works is directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in his office, and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Yeas 10. Nays 0. Absent 6. Christoffersen, Conrad, Duevel, Richards, Salmson, Wright.

RESOLUTION by Hawley.

Be it resolved by the City Council of the City of Tacoma, that the alley between "D" and "E" Streets, from the south curb line of South 15th Street to connect with the proposed pavement on Jefferson Street at the south end of Block 1706, Map of New Tacoma, except the intersection of South 15th Street and South 17th Street between the curbs, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots benefitted thereby, in accordance with the laws of the State of Washington and ordinance No. 1382 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in ten equal annual installments, with interest at the rate of seven per cent per annum on deferred payments.

Said improvement shall consist in grading said alley to the established grade with a roadway twenty-eight (28) feet in width, and in laying down on said roadway a permanent pavement of brick on a concrete base; also in constructing the necessary cedar curbs and drainage. The improvement shall also consist in constructing on each side of said pavement sidewalks of plank five feet in width, together with cement concrete curbs.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 321", against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

- All the lots in Blocks 1306, 1307, 1506, 1507, 1706.
- Lots 1 to 22 inclusive, Block 1707, all in Map of New Tacoma.

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in his office, and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Yeas 10. Nays 0. Absent 6. Christoffersen, Conrad, Duevel, Richards, Salmson, Wright.

RESOLUTION by Hawley.

Be it resolved by the City Council of the City of Tacoma, that South 43rd Street and South "N" Street, from the center of Park Avenue to Asotin Street, in the City of Tacoma, be improved in the manner hereinafter described, and that the cost and expense of making said improvement, be assessed upon the adjoining, contiguous and proximate lots benefitted thereby, in accordance with the laws of the State of Washington and ordinance No. 1382 of the City of Tacoma; said assessment to become due and payable at the option of the property owners in five equal annual installments, with interest at the rate of seven per cent per annum on deferred payments.

Said improvement shall consist in grading said portion of said streets to the established grade, with a roadway one-half the width of said streets, and a parking and sidewalk space on each side thereof one fourth the width of said streets. Said improvement shall also consist in constructing curbs and gutters, cross-walks and the necessary storm water drainage.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 307", against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

Lots 11, 12, 13, 14, 15, 16, 17, 18, 19 and 20, in Blocks 9116, 9117, 9118, 9119, 9120, 9121, 9122, 9123, 9124, 9125, 9126, 9127, 9128 and 9129;

RESOLUTION BY HOWLEY.  
No. 3621.

Be it resolved by the City Council of the City of Tacoma, that Sixth Avenue, from the present pavement on "C" Street to the center line of Warner Street, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefited thereby in accordance with the laws of the State of Washington and Ordinance No. 1382 of the City of Tacoma; said assessment to become due and payable at the option of the property owners in ten (10) equal annual installments, with interest at the rate of seven (7) per cent. per annum on deferred payments.

Said improvement shall consist in grading said portion of said Sixth Avenue to the established grade, with a roadway from "C" Street to "E" Street thirty (30) feet in width, and from "E" Street to Warner Street fifty (50) feet in width, and laying down on said portions of said street, a permanent pavement of Asphalt, Bituminous Rock or Brick, on a concrete base, except from "C" Street to "E" Street and from "J" Street to "K" Street, where the pavement shall consist of sandstone blocks on a concrete base. All of said pavements to have brick gutters, together with concrete and granite curbs, and the necessary storm water drainage.

Provided that that part of said Sixth Avenue to be paved by the Tacoma Railway & Power Company under its franchise, and the intersection of St. Helen's Avenue and Tacoma Avenue, already paved, are not included in this improvement.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer, and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 263", against which the cost and expense of making said improvement shall be charged by special assessment to-wit:

RESOLUTION No. 1669  
By Hawley.

Be it resolved by the City Council of the City of Tacoma, that "K" Street from the present pavement on Division Avenue to the center of South 15th Street, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefited thereby in accordance with the laws of the State of Washington and Ordinance No. 134 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in ten (10) equal annual installments, with interest at the rate of seven (7) per cent per annum on deferred payments.

Said improvement shall consist in grading said portion of said "K" Street to the established grade, with a roadway fifty (50) feet in width, except from South 11th Street to South 12th Street, where it shall be fifty-two (52) feet in width, and laying down on said portion of said street, a permanent pavement of asphalt, bituminous rock or brick, on a concrete base, all of said pavements to have brick gutters, together with concrete and granite curbs and the necessary storm water drainage.

Provided that that part of said "K" Street to be paved by the Tacoma Railway & Power Company under its franchise, and the intersection of Sixth Avenue, be not included in this improvement.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer, and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 320", against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:-

All the lots in Blocks 222, 321, 322, 421, 422, 521, 522, 721, 821, 822, 921, 922, 1021, 1022, 1121, 1122, 1221, 1222, 1321, 1322, 1421, 1422, 1521, 1522, 1621, 1622, 1721, 1722, 1821, 1822, lots 2, 3, 4, 5 and 6, in Block 221, All in Map of New Tacoma, W.T.

RESOLUTIONS.

RESOLUTION No. 1061.

Be it resolved by the City Council of the City of Tacoma, that in sewer district No. 155, created by the Commissioner of Public Works on April 4, 1906, a sanitary sewer of eight (8) inch terra cotta pipe, be laid upon the following described lines, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefited thereby, in accordance with the Laws of the State of Washington, and Ordinance No. 1582 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in five (5) equal annual installments, with interest at the rate of seven (7) per cent. per annum on deferred payments.

In North 21st Street from the present manhole in the alley between North Oakes Street and North Five Street to North Five Street, and in North Five Street from North 21st Street to the south boundary line of Buckley's Addition to Tacoma.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer, and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefited by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 155", against which the cost and expense of making said improvement, shall be charged by special assessment, to-wit:

- Lots 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, in Block 17,
Lots 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31 and 32, in Blocks 12, 13, 14, 15 and 16,
Lots 24, 25, 26, 27, 28, 29, 30, 31 and 32, in Block 11
Lots 9, 10, 11, 12, 13, 14, 15 and 16, in Block 10.

All in Buckley's Addition to Tacoma, (Plat of).

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in office, and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Yeas 12. Nays 0. Absent 4. Conrad, Doud, Read, Wright.

RESOLUTION No. 1062.

Be it resolved by the City Council of the City of Tacoma, that "E" Street, from the present pavement on Duane Avenue to the center of South 27th Street, and Baker Street, from Duane Avenue to "E" Street, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefited thereby in accordance with the laws of the State of Washington and Ordinance No. 1582 of the City of Tacoma; said assessment to become due and payable at the option of the property owners in ten equal annual installments with interest at the rate of seven per cent per annum on deferred payments.

Said improvement shall consist in grading said "E" Street and Baker Street to the established grade with a roadway on "E" Street 40 feet in width, except from Sixth Avenue to South 7th Street, where it shall be fifty feet in width, and on Baker Street fifty feet in width, and in laying down on said streets a permanent pavement of asphalt, bituminous rock or water on a concrete base, all of said pavements to have brick gutters, together with concrete and granite curbs, and the necessary storm water drainage.

Provided, that street intersections, where too steep for asphalt or bituminous rock, shall be paved with sand stone blocks on a concrete base.

Provided that that part of "E" Street and Baker Streets to be paved by the Tacoma Railway and Roper Company under its franchise is not to be included in this improvement.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefited by said improvement and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 251," against which the cost and expense of making said improvement shall be charged by special assessment, to-wit:

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in his office, and to give due notice to the owners of said property in the manner provided by the City Charter.

And to it further resolved that Resolution No. 3625, passed by the City Council of the City of Tacoma, February 28th, 1906, and all other resolutions in conflict herewith be, and the same are hereby rescinded.

Adopted on roll call. Year 16. Ayes 0. Absent 0.

RESOLUTION

It is resolved by the City Council of the City of Tacoma, that Junett Street from South 1st Street to South 1st Street, be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefitted thereby, in accordance with the laws of the State of Washington, and Ordinance No. 1282 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in five equal annual installments, with interest at the rate of seven per cent. per annum on deferred payments.

Said improvement shall consist in grading said portion of said street to the established grade with a roadway thirty-six (36) feet in width, and a parking and sidewalk space on each side thereof fifteen (15) feet in width. Said improvement shall also consist in constructing curbs and gutters, cross walks and the necessary storm water drainage.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer, and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district to be known and designated as "Local Improvement District No. 310", against which the cost and expense of making said improvement, shall be charged by special assessment, to-wit:

Lots 1, 2, 3, 4, and 5, in Blocks 1, 3, 5, 7, 9, 11, 13 and 15, and Lots 1, 2, 3, 4, 5 and 6, in Blocks 2, 4, 6, 8, 10, 12, 14 & 16,

All in Melrose Addition to Tacoma, W.T.

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in his office, and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Year 16. Ayes 0. Absent 0.

The following communication was received from the Mayor:

Tacoma, Washington, April 17th, 1906.

TO THE HONORABLE CITY COUNCIL, OF THE CITY OF TACOMA:

Since my annual message to the Council a year ago the City of Tacoma has made a record of progress and prosperity on a substantial basis greater, I believe, than in any previous year of her history. Our growth in population, in business volume and in real estate values have been gratifying indeed, and more pleasing still is the immediate prospect of this spirit of activity and progress, which we now enjoy, bids fair to continue into the indefinite future and while it is a condition in every way desirable and promising it brings with it to the elected officials of the City of Tacoma a work and responsibility of increasing magnitude and importance.

It is safe to predict that this Honorable Body just organized will have more important work to perform, and a greater amount of it, than any preceding Council and in order to accomplish it with the greatest amount of credit to yourselves and benefit to the citizens, it is necessary that we should act together as servants of the people, forgetting altogether our official work that there is such a thing as politics or political party and having in mind but one object - that to promote the greatest good for the interests of the City of Tacoma and to protect the interests of our citizens by carefully guarding the granting of franchises or privileges to corporate interests.

There reflects with outstanding credit the incoming of new railroads to this city and the facilities necessary to them to make of this city their chief Pacific Coast terminal. It is especially gratifying to the extent that it lies in the power of the city government to give of projects, investigations, careful scrutiny and deliberation should be given to every proposition that is brought to the aid that nothing inconsistent with the rights of the city should be included therein.

The introduction of the progressive spirit now prevailing in the minds of Tacoma's citizens, it is worthy of note that all of the amendments submitted to the voters at the last election were adopted by popular vote. We may well take note of this mandate of the people as their message to us which we are expected to carry out, that the City's growth and progress should be aided and promoted. Perhaps the most important among the questions presented to the people is to build the gravity water system from Green River, at a cost not to exceed the million six hundred and seventy thousand dollars, payable only out of the regular receipts of the water receipts of said system, and of a capacity of forty million gallons per twenty-four hours. I do not deem it necessary in this message to repeat what the public generally know about the city's desperate need of this gravity supply, nor to make any statement of the present water work supply system which is unsatisfactory for the most part as to quality of water and as expensive of operation as to the part supplied by well. In fact of you are aware, the city is now engaged in increasing the well output at South Tacoma and the city engineer informs me that the cost of pumping water from a well in South

Tacoma by the pole air lift system at the rate of twelve and one-half mills per gallon per hour for power will amount to three thousand dollars per annum per million gallons per hour for four hours. This for power alone for raising the water to the surface of the ground to pump nothing of machinery cost and labor of engineers and the additional running cost of a lift lifting that water through the runs to the high surface in the city. It can, however, be readily seen that it were a waste of money and effort to do anything more in this direction than enough to keep up the temporary supply, which we must do, until a gravity system can be installed.

I wish to emphasize and repeat that the amount above stated, one million six hundred and seventy thousand dollars, is the maximum estimate and that the contract for this work must be less and in no case can be more for its ultimate completion and transfer over to the city, than the amount above given. The plans embody a sufficient provision for Lester and the Hot Springs Hotel to remove any objection that these places need hot water and plenty of it is the crying need of this city at the present time and the fulfillment of it will do more to promote the rebuilding of the city and the enjoyment of its citizens, in health and beautiful surroundings, than any other thing within the power of the City Council to create.

I wish to state also that the installation of this system is in no respect an engineering feat, as the route from the intake of Green River into the city, and all the way through an open and fairly regular contour of country. Its large cost is not primarily to the large pipes to be used, the large reservoir to be built, and its length in miles, but so far as engineering is concerned it is not more difficult than the distance between one-tenth and the cost only one-tenth the amount. I have no special features of my own idea expressed by some people in regard to this undertaking, that it will be necessary to import some men from a great distance, and at a magnificent salary or bonus to oversee the installation of this work. All that is necessary to do in my opinion is to make the salaries in the Engineering Department as the pay schedule permits of, and to appoint a City Engineer, who is, by the vote of the people and the provisions of the charter, to be put in charge of this plant. The work will be let by contract to the lowest bidder, who will take in payment for his work bonds bearing four per cent interest, payable only out of the surplus revenues of the water department.

The City of Tacoma has a police force of fifty men all told, including detectives, jailers, drivers and sergeants. This is at the rate of one policeman for a population of fifteen hundred. The usual allotment recognized as necessary in civilized countries is one officer per one thousand inhabitants, which would give the City of Tacoma a total of one hundred and fifty men. In considering this matter I will ask you to reflect on the fact that if the population of this city which of itself requires more men for a given amount of protection than if the same population were contained in a much smaller area. Under the circumstances I believe you will consider it a very reasonable request to ask for an increase in the police force of ten men. The probability too, that in the near future, we will have a large increase in population, both in the city and in the surrounding country entered in railroad building, is a strong additional reason why this increase of the City's protective force should be made at once.

In due time the Chief of the Fire Department will ask for an increase in the force and equipment of that department, which it will be necessary to grant in some degree. In my co-operation of the large water front corporations with the City, I believe it will be possible to build and construct a good and sufficient fire-belt for the protection of water front property.

This Honorable Body now has it within your power to make an adjustment of salaries for appointive officers, and in connection with this I desire to recommend and increase the Chief of the Fire Department and Chief of Police, who are now receiving respectively two hundred and fifty dollars and one hundred and fifty dollars per month. I think each of these men ought to receive one hundred and fifty dollars per month. The salary of the City Attorney ought to be raised to two hundred and fifty dollars per month; that of the First Assistant to one hundred and fifty; the Second Assistant to one hundred and twenty-five; and I also recommend that a third assistant be placed in that office at a salary of one hundred dollars per month and that the stenographer be given eighty-five dollars.

The Commissioner of Public Works should receive two thousand dollars per month, the Electrician one hundred and twenty-five dollars per month, and the head of the Water Department one hundred and twenty-five dollars per month. I make the above recommendations on these salaries, not in any spirit of detraction, but as a recommendation for your consideration as I believe them moderate in amount, but you in your wisdom may see fit to increase or decrease some of them at your pleasure.

On account of the fact that a ticket labelled "Municipal Ownership" was distributed at the late election, the impression may have gone abroad that the people of the City of Tacoma were opposed to that principle. It is needless for me to deny that many in the city are I believe that more than nine-tenths of the people of the City of Tacoma are heartily in favor of that principle as applied to the two great public services now owned and operated in the City; that this principle will be later extended to include other services now in the hands of private corporations who give a very unsatisfactory service at a high cost, whose officers and management are to decrease the cost of labor by working their men ten or twelve hours a day at low wages and to increase their dividends for the benefit of the stockholders, I firmly believe. But for the present the friends of municipal ownership should promote that principle by extending and perfecting the water system and the light system that we now own. The employees of these departments are required to work eight hours per day which is enough, and the City employs enough help to give good service to the people. At the same time it must be understood that the City shall expect and exact a faithful performance of duty on the part of City employees, to the end that they give full value received for their wages.

This Honorable Body is the largest and chiefest part of the City's government, and your wisdom and judgment the people depend to carry out their will and purpose. I assure you of my earnest desire to co-operate with you at that end and I sincerely desire that the City

RESOLUTION  
No. 3676

By Doten.

Be it resolved by the City Council of the City of Tacoma, that South 15th street and South 17th street, except the intersection of "D" and "E" Streets, from "C" Street to Tacoma Avenue be improved in the manner hereinafter described, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefitted thereby in accordance with the laws of the State of Washington, and Ordinance No. 1382 of the City of Tacoma, said assessment to become due and payable at the option of the property owners in five equal annual installments, with interest at the rate of seven (7) per cent. per annum on deferred payments.

Said improvement shall consist in grading said portion of said streets to the establishment of a permanent roadway six (6) feet in width, and laying down on said roadways a plank curb and gutters and the necessary storm water drainage.

All of said work to be done, made and completed in accordance with the plans and specifications to be prepared by the City Engineer, and approved by the Commissioner of Public Works.

It is hereby declared that the following lots and parcels of land will be benefitted by said improvement, and shall constitute a local improvement district, to be known and

designated as "Local Improvement District No. 317", against which the cost and expense of making said improvement, shall be charged by special assessment, to-wit:

- All the lots in Blocks 1506, 1507, 1508, 1509, 1510, 1511,
- Lots 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25 and 26, in Blocks 1506, 1507, 1508, 1509, 1510 and 1511.
- Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, in Block 1705.
- Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, in Blocks 1707, 1708, 1709, 1710 and 1711, all in Map of New Tacoma, W.T.

The Commissioner of Public Works is hereby directed to cause a survey, diagram and estimate of the entire cost of making said proposed improvement, to be made and filed in his office, and to give due notice to the owners of said property in the manner provided by the City Charter.

Adopted on roll call. Yeas 16. Nays 0. Absent 0.

UNFINISHED BUSINESS.

This being the time set for hearing appeals from the assessment and assessment roll in the matter of the improvement in Local Improvement District No. 255, the same was taken up for consideration and on motion of Hawley the assessment roll was referred to the Streets & Alleys Committee and the hearing postponed for one week.

This being the time set for hearing appeals from the assessment and assessment roll in the matter of the improvement in Local Improvement District No. 302, and it appearing that no objections have been made to said assessment or assessment roll, and no appeals taken therefrom; and after due deliberation and consideration of said assessment by the City Council, on motion of Hawley it was unanimously decided and determined to approve and confirm said assessment and assessment roll; and the City Attorney was directed to prepare an ordinance confirming and approving the same for introduction and passage by the City Council which was done accordingly.

On motion of Whitman the petition of W. F. Hawer, et al, for a fire hydrant at the intersection of North 30th & Junett Streets, was withdrawn from the files and referred back to the Fire & Water Committee.

This being the time to which was postponed the hearing of the petition of the Board of Trustees, University of Puget Sound, to vacate that portion of North 6th Street between Grant Avenue & Sprague Avenue, the same was taken up for consideration together with the communication of the University withdrawing the said petition, and on motion of Hawley it was ordered that the petition be not granted and the petition and communication relating to same were ordered placed on file.

On motion of Hawley the Council resolved itself into COMMITTEE OF THE WHOLE for the consideration of the communication of Burkey, O'Brien & Burkey, submitting a petition asking for the revocation of a saloon license granted to Jurich & Stambuk at 2423 North 30th Street, and the ordinance granting a franchise to the T.R. & P.Co, on a part of Union Avenue.

At 10:30 o'clock p.m. the committee rose and reported: recommending that the saloon license of Jurich & Stambuk be revoked, and that a resolution providing for the same be adopted. Also recommended the passage of the ordinance granting a franchise to the T.R. & P.Co, for a street railway on part of Union Avenue. Adopted.

On motion of Hawthorne the council reverted in order of business to

RESOLUTIONS.

RESOLUTION No. 3682

Resolved that the City Council of the City of Tacoma did on the 28th day of April, 1906, fix the time for the hearing of the petition of Burkey, O'Brien & Burkey, asking for the revocation of the liquor license hereinafore granted to Jurich & Stambuk, for the sale of liquor at 2423 North 30th Street, Tacoma, Wash.

At said time and place the City Council did proceed to hear and determine

said complaint and all evidence offered in support thereof and the said Jurich & Stambuk having been present and participated in said hearing and the said City Council being satisfied that it would be to the best interests of the City of Tacoma that said license should be revoked; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That the license to sell liquor at 2423 North 30th Street heretofore granted to Jurich & Stambuk be and the same is hereby revoked and that after notice of the passage of this resolution having been given to said holders of said license the said license shall immediately cease to have any force or effect, and shall be deemed to be null and void.

Adopted on roll call. Yeas 16. Nays 0. Absent 0.

MAY 9 - 1906

PUBLISHED BY THE CITY OF TACOMA, WASH.

Tacoma, Washington, May 9, 1906.

To the Honorable City Council,  
of the City of Tacoma.

Gentlemen:

Your Committee on Fire and Water met on Friday evening, May 4th, to consider the petition of property owners for additional fire protection along the water front.

A committee from the Chamber of Commerce, together with representatives of all the large property interests on the water front, the Mayor, Chief of Fire Department and Assistant City Attorney were present.

After a very thorough discussion, the property owners through the Chamber of Commerce Committee submitted the following proposition, which your Committee on Fire and Water hereby recommends to the City Council for adoption:

The water front property owners to provide the money for the construction and equipment of a fire boat to cost approximately \$100,000.00, the City to operate and maintain the same, and to pay the owners advancing the money five per cent. of the cost each year for the next two years, and thereafter ten per cent. or such per cent. each year as the financial condition of the City will warrant, together with four per cent. interest on the unpaid portion, until the purchase price is paid, when the boat shall become the property of the City; the plans of construction to be approved by the City Council.

It is also proposed, and the Committee on Fire and Water recommends, that the owners of the tug "Fearless", which is equipped as a fire boat, be requested to submit a proposition to the City Council, to keep the tug "Fearless" within the harbor and ready for action at all times; the City to equip the tug with two thousand feet of hose, and the property owners to pay the major portion of the City's contract with the owners for maintenance.

Respectfully submitted.

A. M. Richards,  
Chairman.

UNFINISHED BUSINESS.

This being the time set for hearing the petition of Lorina Pearson, for reducing the width of North 37th street, from Union avenue to Proctor avenue, to 80 feet in width, the same was taken up for consideration. On motion of Doud the remonstrance of C. A. Landberg et al, against the vacation was taken from the table, and granted; and on further motion by Doud the petition for the vacation was overruled and denied.

This being the time set for hearing appeals from the assessment and assessment roll in the matter of the improvement in Local Improvement District No. 290, and it appearing that no objections have been made to said assessment or assessment roll, and no appeal taken therefrom; and after due deliberation and consideration of said assessment by the City Council, on motion of Doten, it was unanimously decided and determined to approve and confirm said assessment and assessment roll; and the City Attorney was directed to prepare an ordinance confirming and approving the same, which was done accordingly.

This being the time set for hearing appeals from the assessment and assessment roll in the matter of the improvement in Local Improvement District No. 298, and it appearing that no objections have been made to said assessment or assessment roll, and no appeal taken therefrom; and after due deliberation and consideration of said assessment by the City Council, on motion of Doten, it was unanimously decided and determined to approve and confirm said assessment and assessment roll; and the City Attorney was directed to prepare an ordinance confirming the same, which was done accordingly.

This being the time set for hearing appeals from the assessment and assessment roll for the improvement in Local Improvement District No. 300, the following appeal was taken up for consideration, viz: the joint appeal of B. N. and Ellen Bradfield; the appeal was read by the Clerk to the City Council, and the questions raised and objections urged in said appeal were brought on for hearing before the City Council as a body. An explanation was made by the Commissioner of Public Works, to the effect that the objections made by the remonstrants had been removed, and that the contractor had placed the dirt asked for on the lots of said remonstrants. Therefore on motion of Doten, it was ordered that the objections presented by said appeal be each and all overruled and the prayer thereof denied, and the assessment and assessment roll approved and confirmed; and the City Attorney was directed to prepare an ordinance for the approval and confirmation of said assessment and assessment roll, which was done accordingly.

On motion of Doten the Council reverted in order of business to

#### REPORTS OF OFFICERS.

The following communication was received from the Mayor:

Tacoma, Wash. June 5th, 1906.

The Hon. City Council of the City of Tacoma,  
Tacoma, Washington.

Gentlemen:

After careful consideration I have decided to withhold my approval from the ordinance hereto attached, entitled "An Ordinance Governing the Traffic in Intoxicating Liquor within the City of Tacoma," and repealing Ordinance No. 1157, No. 1457 and No. 1566.

On April 3rd, last, there was held a city election in the City of Tacoma, when three candidates for Mayor were voted upon by the People and for each party nomination there were two or more contesting candidates at the primaries. Neither during the preliminary contests for nominations, nor during the campaign after the party nominations had been made, did any candidate before the people on any ticket announce his advocacy of a one thousand dollar license for saloons; nor did any candidate for the council of any party announce his intention if elected, to vote for such a measure.

A proposition to increase the license \$400.00 on each saloon, together with the provisions of this proposed ordinance is of sufficient importance to be made an issue in a general election, and ought to be made a part of a party platform of the party advocating it, so that it may come before the people clearly for a discussion and for their decision at an election.

This was not done at the last election by any one of the supporters of this measure elected at that time, nor by any candidates for nomination for Mayor at the primaries of his party, nor any candidate after nomination when appealing to the people for their suffrages. Some of the supporters of the increase in license justify it on the ground of the need of more money on the part of the City, while others and perhaps the same supporter contend that the one effect of the raise in the license would be to decrease the number of saloons. To the extent that saloons would be decreased, the revenue would be curtailed, and on the other hand the increase in the license of those remaining in business would probably make up for the revenue lost by the cessation of those going out of business, so that it is likely that on the whole the effect of this measure from a revenue standpoint would be that there would be no material increase in the amount derived from the licenses in the aggregate, and that there would be a decrease in the number of saloons.

My reading of temperance and prohibition propoganda has shown me that the advocates of prohibition are opposed to high license. Tacoma now collects a fairly high license and I have not heard of any well supported agitation for a change, either to raise or lower it, and it is therefore fair to presume that the majority of the people are satisfied on that question.

It is an easy matter for people not concerned in a business to undertake to impose an additional burden on the other man's business, though such procedure is not in accord with the Golden Rule, nor the fairness incumbent on a public official whose duty it is to consider the rights and interests of all parties affected by any proposed legislation. Therefore, I believe the present saloon license should be left as it is until the people ask for a change at the ballot box.

The provisions of the ordinance governing saloons now in force are sufficiently strict to compel a good conduct of the place and are so broad that the Council has it in its power to revoke a saloon license "if in the interest of the City of Tacoma to do so," "or if the place is one where in the opinion of the Council a saloon should not be," "or if the applicant is an unfit person".

The provision of Section 12 that no more than one license shall be granted to any one person, firm or corporation, cannot be dictated in the interests of the City or the people, and would seem to be directed as a blow at the brewing companies who have found it necessary in the protection of their own business to take out and pay for a number of licenses and leases on different locations; that they may the better control the sale of their product in their home town and keep out outside competition.

The tendency of the one thousand dollar license too would undoubtedly be to vest the sale of liquor in the hands of a fewer and stronger individuals and to that extent tend to the creation of a monopoly. In addition to the reasons foregoing there are good and sufficient reasons from a legal standpoint and a standpoint of public policy, why this measure should not become an ordinance. It is attempted under this measure not only to revoke the license of the saloon, but also to declare forfeited the unearned portion of the license money, and also without any judicial determination to possess a penalty of \$1500.00, which is \$1000.00 in excess of the punishment permitted under the laws of the State after hearing and judicial determination. This provision is plainly in contravention of constitutional and judicial determination. This provision is plainly in contravention of constitutional principles "even if the power to declare a forfeiture is conferred", still no person can by ordinance be deprived of his property by forfeiture without notice or without legal investigation or adjudication. An ordinance in violation of this principle is void and in contrary to the genius of our laws and institutions. Again the prohibition sought to be made in the latter part of subdivision "c" of Section 5, providing that no female person shall enter or remain in or about said premises is clearly subversive of the constitutional right to personal liberty. Numerous decisions substantiating this claim have been called to my attention.

Again in Section 4 of said measure it is provided "that said petition shall also be signed by the owners of at least a majority of the lots in the block in which said place of business is to be located." It has heretofore been provided that the property owners residing in the block were the people who should have the say as to whether or not they should have a saloon in their block. In this respect the present ordinance which included the word "resident" is more desirable than this measure which omits that precaution.

Proprietors of restaurants whether such restaurant is a place in which liquor is sold or not, put in boxes for the convenience of their patrons at their desire and request "or privacy, and while they may be an abuse practiced by people of bad character in such places, such people cannot be baffled or prevented from vice by the abolition of boxes in restaurants and saloons, and because there is such abuse is not a good reason for the total abolition of such places as the general use and proper purpose for which such boxes are now are for the use of the respectable public who may wish to enjoy a meal with friends,

Business associates or members of their own family in the privacy thus afforded, and which cannot be afforded at tables in a large dining room where the general public may be seated at the same or adjoining tables.

In my best judgment morality and virtue cannot be either increased or diminished by this proposed measure, nor by the difference in amount of the license fee of the place selling liquor, and I believe the present ordinance is good and sufficient to close up any improperly conducted saloon in the City, or to prohibit the granting of any license where a saloon should not be, or the revocation of any existing, and the Council is the sole judge on these matters.

I have mentioned only some of the illegalities and irregularities of the proposed ordinance, and there are many others which have been called to my attention which I do not think necessary to enumerate as sufficient has been shown to justify the withholding of my signature. I trust that your honorable body will re-consider the measure in a spirit of fairness and justice and make your decision accordingly.

Respectfully submitted,

Geo. P. Wright  
 Mayor.

REPORTS OF OFFICERS.

The following communication was received from the Mayor:  
Tacoma, Washington, June 19th, 1906.

TO THE HON. CITY COUNCIL  
OF THE CITY OF TACOMA.

Gentlemen: I cannot see my way clear to assent to the passage of the ordinance hereto attached, entitled, "An Ordinance governing the traffic of intersecting highways in the City of Tacoma, and repealing ordinances No. 1157, No. 1457 and No. 1625 and ordinances and parts of ordinances in conflict herewith." I believe that had an effort been made on the part of the framers of this ordinance to confer with all the members of the City Council and the Mayor in the matter of framing a new ordinance for the City of Tacoma, that a moment might have been reached and an ordinance framed in conformity therewith that would have been

satisfactory to all parties concerned, and received the unanimous vote of the Council, and I regret very much that this course has not been followed. As it is I find myself obliged to withhold my signature from Sections four (4) and five (5) and also Sections twelve (12) and fourteen (14).

My objection to Section 4 has been already stated to your honorable body in a previous communication. I am unable to understand why the matter of the location of a saloon in a block should not be under the control of resident owners rather than of owners regardless of their location, whether in the City or not, and I also believe that the rule existing that two-thirds of the Council should have the power to grant a license, notwithstanding a remonstrance, instead of three-fourths as provided in this proposed measure. It seems to me the justice of this objection ought to be apparent, as under this present measure if it is desired that a saloon be placed in any resident block of the City it will not be necessary to see any person living in the block. It will only be necessary to look up the owner who may not live in the City to get his signature and if the majority of the owners are non-residents it will leave the granting of liquor license upon the say of those not residents in the block, and would deprive the residents of the block of the right of saying as to whether or not they desire a saloon in that particular block.

I have heretofore given my objections to Section 5 of this proposed ordinance, and am unable to see wherein any change you have made in that section has been designed to overcome the objection formerly made. If this section became a law and was enforceable it would forbid in the employ by such places as the Tacoma Hotel or Donnelly Hotel of a women to do chamber work, or to wait on tables in the dining-room, or any other work in or about such places. It would also compel restaurants to employ only male help if any intoxicating liquors should be sold or served in such places. This is obviously an unjust discrimination against women seeking lawful employment, and no such law should be enacted by the City of Tacoma.

My objection to Section 12 has heretofore been stated, as I am unable to see what good purpose can be subserved by the restriction herein provided that no more than one license shall be granted to any one person, firm or corporation. If this became a law it would no doubt work a great hardship on the brewing companies in their endeavor to control the market for their own output in our own City. I believe the people are, and ought to be in favor of patronizing home manufacturers and giving them the preference over and above outside competition.

As to section 14 to which I have already stated my objections in a previous communication, I do not think that such a harsh restriction should be imposed upon restaurants, and fail to see how any reform can be made in the character, mind and habits of people by establishing boxes in restaurants, which are put in by the management of these places, in order to give privacy to their patrons.

I sincerely trust that at least a majority of your honorable body will concur in the objections I have made to this proposed measure, as I feel warranted in assuming that there is no desire on the part of this Council to enact unreasonable or unfair restrictions.

Respectfully submitted,

Geo. P. Wright,

Mayor,  
City of Tacoma.

The above communication was ordered spread upon the Journal, and upon motion being made respectively as to each of said Sections 4, 5, 12 & 14, that said sections pass notwithstanding the objections of the Mayor, and the question being duly put and voted upon, the said motion as to each section was lost by the following vote: Yeas 10. Christoffersen, Peters, Bond, Courley, Hawthorne, Richards, Turnbull, Whitman, Woodworth, Mr. President. Ways 5. Hollingham, Conrad, Duvel, Giblett, Hawley. Absent 1. Clark.

A communication was received from the Ass't City Attorney, recommending that the City accept \$100 in full settlement of the case of W. H. Harris -vs- City of Tacoma, and was referred to the Finance Committee.

RESOLUTIONS.

RESOLUTION  
No. 3710  
By Doud.

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That permission be and is hereby granted to the Defiance Lumber Company to build, construct and maintain a spur track in Front Street along Block 108 Mason's Shore Line Addition to the City of Tacoma, said spur to be constructed according to the provisions of a certain franchise now pending for the construction of a spur on said street by the Northern Pacific Railroad Company.

Adopted.

RESOLUTION  
No. 3711  
By Richards.

WHEREAS, the Tacoma Railway and Power Company is threatening to lay street car tracks on the following described streets in the City of Tacoma, to-wit: Beginning on Railroad Street (now Commerce Street) at the point of intersection of the southerly line of South Ninth Street; and running thence northerly on Railroad Street (now Commerce Street) to Cliff Avenue; thence northerly on Cliff Avenue to "E" Street; thence northwesterly on "E" Street to a point on North Second Street and thence southwesterly on North Second Street to a point on "I" Street; claiming the right so to do under Section 2 of Ordinance No. 304 of the City of Tacoma; and

WHEREAS, the said Section 2 of Ordinance No. 304 has been repealed by the City Council of the City of Tacoma by Ordinance No. 2353 on account of the abandonment of the franchise on said streets and non-user thereof by the said Tacoma Railway and Power Company; and

WHEREAS, the said Tacoma Railway and Power Company now has no franchise or right to lay tracks on said above described streets,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Tacoma, that the Chief of Police of said city be, and he hereby is instructed and directed to detail sufficient policemen to guard the said streets at all hours of the day and night and to prevent the said Tacoma Railway and Power Company, or any of its officers, agents or employees, or any one for it or on its behalf, from laying down tracks upon said streets, or any part thereof, or doing any work preparatory thereto, or in any manner interfering with said streets; and that the City Attorney of the City of Tacoma be, and he hereby is instructed and directed to aid and assist the said Chief of Police in preventing the laying of tracks by the said Tacoma Railway and Power Company, or any of its agents, officers or employees, or any one for it or on its behalf, upon said streets, or any part thereof, and to take all necessary action by the bringing of suits, whether in law or in equity, for the purpose of preventing such threatened action by the Tacoma Railway and Power Company, or any of its agents, officers or employees, or any one for it or on its behalf.

Adopted.

RESOLUTION  
No. 3712  
By Doten.

WHEREAS a resolution was adopted by the City Council of the City of Tacoma on the 7th day of March, 1906, ordering the improvement of East "K" Street from the South curb line of Bayling Avenue to the South line of South 29th Street; South 29th Street from the west line of East "K" Street to its intersection with Upper Park Street; Upper Park Street from its intersection with South 29th Street to the center line of East "H" Street; South 28th Street from East "K" Street to East "H" Street, same being Local Improvement District No. 293, and that the cost and expense of making said improvement be assessed upon the adjoining, contiguous and proximate lots and parcels of land benefited thereby, in accordance with the laws of the State of Washington, and Ordinance No. 1202, approved June 17th, 1899; and

WHEREAS the Commissioner of Public Works has caused a survey, diagram and estimate of the entire cost of said improvement to be made by the City Engineer, which have been filed in his office for the inspection of all persons interested; AND

WHEREAS the Clerk of said Commissioner of Public Works has caused due notice of the filing of said survey, diagram and estimate to be published daily for five days in the official newspaper of the City of Tacoma, which notice contained a copy of said resolution, and specified the part of said East "K" Street; South 29th Street; Upper Park Street; South 28th Street proposed to be improved, the kind of improvement proposed to be made, together with estimated cost and expense thereof, and also a general description, sufficient for identification, of the property to be charged with the expense of making such improvement; and

WHEREAS fifteen days have elapsed since the last publication of said notice and no remonstrance against said improvement has been made or filed in the office of said Commissioner of Public Works by any of the owners of any of said lots or parcels of land to be specially taxed for said improvement, nor by any other person, and the time for making and filing remonstrances has expired; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That said work and improvement be done and made, and the Commissioner of Public Works is hereby instructed to let the contract for said improvement and to proceed therewith according to the provisions of the City Charter and said Ordinance No. 1202.

By Duvel.

Be it resolved by the City Council of the City of Tacoma: That the Commissioner of Public Works be and is hereby authorized and directed to appoint four competent persons as Special Water Inspectors, whose duties and compensation shall be as follows:

1. The Commissioner of Public Works shall for the purpose of carrying out the provisions of this resolution divide the City of Tacoma into four districts and assign one such Special Water Inspector to each district, and provide each Special Water Inspector with a badge marked "Special Water Inspector", and furnish him with a copy of this resolution.
2. Such Water Inspector shall forthwith commence and carry on, without unnecessary delay, until completed, a house to house inspection of the water fixtures used by all customers using water supplied by the City within such district, and shall at the close of each day make and file with the Commissioner of Public Works a written report, giving the name and house number of each place inspected, and the condition of the water fixtures, such reports to be made upon forms prepared for that purpose by the City Hydraulic Engineer and approved by the Special Water Committee of the City Council.
3. The Commissioner of Public Works shall daily furnish a copy of such reports to the City Hydraulic Engineer.
4. When such Special Water Inspector shall find any fixtures out of repair and permitting or causing a leakage or wasting of water, said Special Water Inspector shall serve a written notice on the occupant of the premises by leaving such notice with some person over sixteen years of age, occupying the same, which notice shall designate the repair necessary to be made, and notify such occupant that unless such repair is made within one week from the date of the service of such notice the water will be turned off from said premises and will not again be turned on until such repairs are made and the fines and charges provided by Sections 52 and 53 of Ordinance No. 1802 have been paid, a copy of which said notice shall be filed by such Inspector with the Commissioner of Public Works.
5. The Commissioner of Public Works shall at the close of each week furnish to the City Hydraulic Engineer a full and complete statement of all proceedings during the preceding week under the provisions of this resolution.
6. Such Special Water Inspectors to receive the same compensation as provided by ordinance for Water Inspectors, and on completion of the duties prescribed in Paragraph 2 of this resolution the same shall be discharged by the Commissioner of Public Works.

Council Chamber 7:30 o'clock p. m. Sept. 20th, 1906.

Council re-convened. Present 14. Bellingham, Christoffersen, Clark, Conrad, Doten, Foud, Duevel, Giblett, Hawley, Hawthorne, Richards, Turnbull, Whitman, Mr. President. Absent 2. Gourley, Woodworth.

This being the time set for hearing and considering the charges made by A.M. Richards against James J. Conrad, the said charges were by direction of Mr. President taken from the table and read by the Clerk.

Mr. Conrad, through his Attorneys, John A. Shackelford and William F. Reynolds, challenged the power and authority of the City Council to hear and determine the charges; which challenge is marked "Exhibit A", and which was overruled by Mr. President; to which ruling, and to the fact that the ruling was made by the President of the Council instead of by the whole Council, exception was taken by the accused and the exception allowed.

Mr. Conrad, through his Attorneys, then moved to quash and dismiss the charges; which motion is marked "Exhibit B" and was denied and overruled by Mr. President; to which ruling, and to the fact that the ruling was made by the President of the Council instead of by the whole Council, exception was taken by the accused and the exception allowed.

Mr. Conrad, through his Attorneys, then objected to and challenged the right of A.M. Richards to sit as a member of the City Council in the trial of the charges; which objection is marked "Exhibit C" and was overruled by Mr. President; to which ruling, and to the fact that the ruling was made by the President of the Council instead of by the whole Council, exception was taken by the accused and the exception allowed.

Mr. Conrad, through his Attorneys, then entered a plea of not guilty of any misconduct in office as charged by Mr. Richards; which plea is marked "Exhibit D".

The Clerk then read the following names of witnesses for whom subpoenas had been issued: S. A. Perkins, George Milton Savage, Lorenzo Dow, George P. Griffith, Fred T. Sherman and Harvey L. Johnson, and only Harvey L. Johnson answered the call, although Mr. Griffith, through his Attorney A.R. Titlow, announced that he would attend if it was desired he should so do. The above subpoenas being marked "Exhibit E".

At this time Richards moved that the hearing be postponed for three weeks. Carried on roll call. Yeas 10. Nays 3. Bellingham, Clark, Hawley. Absent 2. Gourley, Woodworth. Excused from voting 1. Conrad.

On motion of Hawthorne the Council reverted in order of business to

RESOLUTION  
No. 1807

WHEREAS, by Ordinance No. 1381 passed by the City Council of the City of Tacoma on June 8th, 1899, and approved by the Mayor of the City of Tacoma on June 12th, 1899, the same being an ordinance entitled: "An ordinance granting to the Seattle-Tacoma Railway Company, a corporation, its successors or assigns, the right to construct, maintain and operate a railroad, telephone and telegraph line, erect poles, wires, and conduct and transmit electric current and other motive power for the operation of said railroad upon, across, along and over certain streets, avenues, alleys and lands in the City of Tacoma," a right, privilege and franchise was granted to said Seattle-Tacoma Railway Company, its successors or assigns, to construct along certain streets, avenues and alleys in the City of Tacoma an electric railway, and to erect poles and wires, and lay down on said streets rails, etc; and

WHEREAS said Seattle-Tacoma Railway Company, did, immediately after obtaining said franchise, construct a part of its line of railway by erecting poles and wires, and laying track along "A" Street and South 11th Street in said City; and

WHEREAS said company, its successors and assigns, wholly abandoned all rights and privileges under said franchise, and failed to complete its said line of railway, and wholly failed to in any manner run cars upon or operate the portion of track so constructed by said company; and

WHEREAS said abandonment has existed for more than five (5) years last past, and the part of said railway so constructed, and poles and wires so erected, are an obstruction on said streets and highways; and

WHEREAS on December 28th, 1904, the City Council of the City of Tacoma, by Ordinance No. 2232 duly passed, and approved by the Mayor of said City, repealed said Ordinance No. 1381; and all rights and privileges of the said Seattle-Tacoma Railway Company, its successors and assigns, thereunder became null and void, and the City of Tacoma thereby elected and does hereby elect to declare said franchise and all rights and privileges of the said Seattle-Tacoma Railway Company, its successors and assigns, acquired under and by virtue of said Ordinance No. 1381 forever forfeited; THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TACOMA:

That all rights and privileges of the Seattle-Tacoma Railway Company, its successors and assigns, obtained, acquired or existing through, under or by virtue of Ordinance No. 1381, entitled: "An ordinance granting to the Seattle-Tacoma Railway Company, a corporation, its successors or assigns, the right to construct, maintain and operate a railroad, telephone and telegraph line, erect poles, wires, and conduct and transmit electric current and other motive power for the operation of said railroad upon, across, along and over certain streets, avenues, alleys and lands in the City of Tacoma", approved June 12th, 1899, be and the same are forever forfeited, and the said company, its successors or assigns, is hereby directed to remove all poles, wires, ties, rails and property of every kind, nature and description placed in "A" Street, South 11th Street, or any other street, avenue or alley mentioned in said Ordinance No. 1381, within twenty (20) days from and after receipt of a copy of this resolution, to be served by the Commissioner of Public Works of the City of Tacoma, or any other proper person.

And on failure so to remove from said streets said property and every part thereof within twenty (20) days from the service of a copy of this resolution, that the Commissioner of Public Works, shall thereupon proceed to remove the same and replace the street in proper condition, and the costs and expenses thereof shall be collected from the said Seattle-Tacoma Railway Company, its successors or assigns.

Adopted.
