## **HEARINGS & APPEALS:**

This is the date set for hearing on the appeal filed by Roger L. Hanson on the denial of the request for reaching of property located between Ea. 55th and 57th Sts., between East Q and East S Streets, from an "R-2 and R-2" to an "R-4-L" District.

Mr. Don Herron, attorney representing Mr. Hanson, said the area in which Mr. Hanson is interested in somewhat a depressed and blighted area. He felt Mr. Hanson should be encouraged and not discouraged for trying to redevelop an entire block. The public interest and a snefit of the community works be served with this development, he added. One of the reasons that the Planning Commission has decided this request was that the property was not adjacent to an arterial. He pointed out that both Street is an arterial and Q and S streets border each end. Q Street is not completed but S Exreet is a gravel road now but would be completed if this project is approved.

Mr. Herron further explained that the Commission stated that an apartment development might tend to discourage further single family dwelling development. Due to the topographical problems he felt the single family homes are not economically feasible to build.

Mr. Buehler, Director of Planning, explained that the area is beginning to develop with single family homes and he felt the apartment soning would set a bad precedent as it would definitely be apot soning.

Mr. Buehlor further explained that the applicant has requested the rezening to erect an eight unit apartment on the N. E. corner of the site. It was
felt by the Planning Commission that an apartment construction would tend to
discourage single family dwellings. Upon construction of proper utilities and
etreet improvements, this area can develop into single family dwellings under
the existing coning.

After some discussion, Mrs. Price moved that the hearing be postponed until Wednesday, Movember 9, 1966. Seconded by Mr. Murtland. Veice vote taken. Motion carried.

Awarding contract to Morris Construction Co. on its bid of \$193,351.60 for Improvement No. 3055-D-2. (T & E Gulch)

Dr. Herrmann moved that the resolution be adopted. Seconded by Mr. Halev.

Mr. Rowlands explained, this is one of the first contracts let under the Housing and Urban Development program. Part of the grant is to be reimbursed by the State and 50% from the Federal Government.

The Resolution was passed unanimously by voice vote. Ayes 8; Nays 0; Absent 1, Finnigan.

Mayor Tollefson asked what funds are needed to complete the sewer system to the Industrial area. He recalled an application was submitted by the City, but the wondered if the funds had been approved.

Mr. Rowlands said the application was submitted prior to July 1st, 1966. He thought the sum was approximately \$2,750,000 which was requested through the Economic Development Administration. However, after July 1st the City of Tacoma was no longer elligible for EDA funds; consequently many discussions have been carried on with Washington D. C. and the local offices and it appears that six to eight times as many requests have been received as there are grants. The Port of Tacoma through the activity of the city, did get a grant earlier in the year. He noted it was questionable whether the city will receive any grant, but the staff has not given up hope.

## Ordinance No. 18163

## Ordinance No. 18164

Providing for the improvement of L I D 4798 for paving on So. Fife Street from So. 68th to So. 70th and other nearby south and streats.

Mayor Tollesson said at the L I D hearing on Monday, Oct. 24, 1966 the property owners interested in opposing the LID wanted to know if they could have more time in which to obtain protects. They were advised they had 30 days after the ordinance passes in which to file more protests. Therefore, additional protests were filed in the area of McKinley Ave. and East K St. bringing the percentage to 64.7% against that area.

He added, there was also opposition to the area of South 68th and Wapato. Those living on higher ground opposed the storm drains which would seem to be of primary benefit to those living on lower ground.

Mr. Bott said inasmuch as there was 64.7% protests against the area of East 51st and McKinley to K St., he would move that this area be deleted. Seconded by Mrs. Price. Voice vote taken. Motion carried.

Mr. McCormick, City Attorney, explained there is an alternate choice in regard to drainage improvements. The Council can delete this portion of the L I D and improve the remaining area. As far as the paving is concerned in this L I D, it is a separated segment which in other cases has been deleted.

Mrs. H. Berndt, 6631 So. Wapato, explained in detail the reasons she was not in favor of the L I D and felt the people against the improvement were being discriminated against.

Mr. E. R. Davidson of 6838 So. Wapato and Mr. Clyde Christian of

6302 So. Wapato were in favor of the improvement.

Mayor Tollesson explained, if the objectors still feel that the project does not benefit them at the time of the assessment roll hearing their property could be deleted from the district.

Roll call was taken on the ordinance resulting as follows:

Ayes 6; Nays 0; Absent 3, Bott, Cvitarich and Firnigan. The Ordinance, as amended, was declared passed by the Chairman.
